This is the miniature "Evergreen Bittersweet," a delightfully effective small vinelike creeper. Everyone who sees it appreciates its value and charm as a ground cover. Of fine texture, perfect for covering ground around small statues or small pools or anywhere a plant of small proportions is required. Rich, dark green foliage all year round and hardy as an Oak. Does excellently in shade or full sun. Space 9 inches apart.

EUONYMUS ACUTA

Ground covering size Doz. \$5.25, 100 \$25.00, 1000 \$225.00
One of our favorite ground covering plants and also a great favorite with our customers. It is a fine prostrate, rapidly spreading vine; makes a smooth, shiny, dark evergreen carpet, hardy anywhere, dense enough to prevent winds from coming up through it. Does equally well in full sun, semi-shade or deep shade. Euonymus Acuta is tops with us for covering large areas or banks.

HYPERICUM (St. John's Wort)

Calycinum Three \$2.60, Doz. \$7.25, 100 \$50.00, 1000 \$475.00
This is a splendid dwarf variety particularly suited as a ground cover in semi-shade or full sun. It sends out countless underground runners which come up each season and help to make a dense carpet of fine green foliage studded with golden cup-shaped flowers. Seldom over 8 to 10 inches high.

ENGLISH IVY—Hedera helix

A lovely vine as well as a splendid ground cover. Its beautiful shiny leaves make a wonderful ground cover in densest shade.
From 2 1/2-inch pots Doz. \$4.75, 100 \$20.00, 1000 \$195.00

BALTIC IVY—Hedera helix gracilis

Identical in habit with English Ivy, but with foliage not as large and more cut; a most graceful vine; perfectly hardy and a splendid evergreen vine on walls with north or west exposures; also an excellent ground cover.
From 2 1/2-inch pots Doz. \$4.75, 100 \$20.00, 1000 \$195.00

BULGARIAN IVY (Hedera helix bulgarica)

Plants from 2 1/2-inch pots Three \$1.70, Doz. \$5.25, 100 \$25.00
This fine hardy Ivy was obtained by us from the Botanic Gardens of St. Louis. Its foliage is much the same shape as that of Hedera gracilis, differing particularly in its shiny leaves which are also more closely set along the stem. Its hardiness equals that of the common Baltic Ivy.

LONICERA

Halliana—Ground covering size, 1-yr., No. 1

Doz. \$4.75, 100 \$20.00, 1000 \$195.00
Hall's Honeysuckle is extensively used for covering banks. Its growth is rapid and because it roots deeply is an excellent plant to prevent washing of soil. Plants should be spaced 18 to 24 inches apart.

Henryi 1-yr., No. 1, Three \$2.60, Doz. \$7.25, 100 \$50.00
The Evergreen Honeysuckle. There are practically no vines which retain their foliage during the winter in colder parts of the country. Therefore, the Henryi Honeysuckle is a very valuable variety. Its long, clean, dark green leaves remain on the vine all winter. The flowers, while fragrant, are of no importance, but the blue-black berries produced in autumn add materially to the charm of this plant.

Aurea variegata

Ground covering size Three \$1.50, Doz. \$5.00, 100 \$30.00
This is the golden variegated form of the well known Hall's Honeysuckle. The golden foliage is quite stunning and ornamental when seen on trellis or fence. Branches taken from it for use with flowers contribute handsomely to the effect of a vase of flowers. In the garden, the golden-leaved Honeysuckle makes a colorful display which lasts well into the winter. In milder climates the leaves are retained throughout the winter. Flowers are buff-yellow, the same as the common Honeysuckle and are as fragrant.

POLYGONUM Reynowtria (Dwarf Polygonum)

Doz. \$5.25, 100 \$25.00, 1000 \$225.00
This handsome ground cover was introduced a few years ago by Amos Perry, one of England's best known plantsmen. It is of easy culture, very hardy, and establishes itself quite rapidly from underground runners. Does best in full sun and its pale green foliage turns brilliant red in autumn. Height is between 6 and 12 inches, and in fall produces numerous airy pink sprays of flowers not unlike those of the "Silver Lace Vine." Buds are deep red, adding to its charm. One of the best ground covers for sunny places and poor soil where Vinca and Pachysandra would not grow.

PACHYSANDRA TERMINALIS (Spurge)

Some of its main uses are: Under all evergreen plantings, under all shrub plantings, for area-way copings, for loggia and enclosed porch uses, for shrub and flower bed borders, for bordering walks and drives, for steep terraces in sun or shade; for city yards, it is ideal for dense shade under any kind of trees. Plants should be spaced 4 inches apart. Pot-grown plants Doz. \$4.25, 100 \$18.00, 250 \$44.00, 1000 \$170.00
We put 2 plants in each pot. Above prices are per pot.
Frame-grown plants, bare root, not potted

100 \$12.00, 250 \$29.00, 1000 \$110.00

Tied in bundles of 25 per bundle. Excellent for inexpensive large plantings.

PACHYSANDRA, SILVER-EDGE

Pot-grown plants Doz. \$5.25, 100 \$25.00, 1000 \$225.00
We put 2 plants in each pot. Above prices are per pot.

It differs from the common Pachysandra by sporting a narrow silvery white margin around its leaves, and the leaves themselves are light green instead of dark green. The edge is seldom more than one-fourth inch wide and never discolors. The effect of a grouping of this variegated type is most pleasing, giving a much lighter effect. The variegated form planted at the base of Rhododendrons or other evergreens is just what is wanted for relief of too much green.

POLYGONATUM multiflorum major

Three \$1.70, Doz. \$5.25, 100 \$25.00
Pendent sprays of delightfully fragrant white flowers on long, 2-foot stems in May, followed in autumn with black or purple berries. A grand plant for a shady position; does equally well in sun. Use in masses under trees where nothing else will grow. A magnificent ground cover.

LILY-OF-THE-VALLEY—Convallaria

Imported Pips for Garden Planting

Finest Strain Select Quality Doz. \$1.50, 25 \$2.75, 100 \$10.00
These Lily-of-the-Valley "Pips" are selected for garden use. They are the best strain for this purpose. Fertilize plantings of Lily-of-the-Valley heavily. You'll be richly repaid in flowers of finest size and long stems.

VINCA minor

A trailing evergreen plant, used for carpeting the ground under shrubs or on graves, where too shady for grass or other plants.
From 2 1/2-inch pots Doz. \$4.25, 100 \$18.00, 1000 \$175.00

VINCA minor alba

From 2 1/2-inch pots Doz. \$5.00, 100 \$22.50, 1000 \$200.00
The white-flowered form of the variety listed above.

VINCA minor, Bowles Variety

From 2 1/2-inch pots Doz. \$4.75, 100 \$20.00, 1000 \$195.00
The foliage is broad and rich glossy green, of strong texture. The flowers are not only larger but of a deeper rich blue color and are borne with remarkable profusion.

Hardy Asters Aster Novi-Belgi

Ernest Ballard

Three \$2.15, Doz. \$7.00, 100 \$40.00

The color, a liquid rose-carmine or deep crimson-pink, is striking even on dull days and dazzling in the autumn sunlight. Robust and vigorous, the loose branching sprays carry a mass of enormous flowers up to 3 inches in diameter. Semi-double in the younger stages, the eye shows with age.

Eventide

Three \$2.15, Doz. \$7.00, 100 \$40.00
Here we have what may be considered the darkest and richest of deep violet-blue hardy Asters. The flowers are semi-double in heavy clusters which in early autumn completely hide all foliage. It is one of the very best of English introductions which performs beautifully here. One of the best of the dark blues.

New Hardy Asters

WAYSIDE GARDENS INTRODUCTIONS

Alaska

Three \$1.90, Doz. \$6.00, 100 \$32.50
Pure marble-white without any tinting; unquestionably the finest and purest white Aster offered. Flowers are big, 2½ inches across, and give a ray-like effect with double layer of flower petals. Makes a fine upright plant about 24 to 30 inches tall, quite rounded but completely covered with flowers when in bloom.

Alcida

Three \$1.90, Doz. \$6.00, 100 \$32.50
Brilliant, non-fading, clear and sparkling is what visitors say of this variety. Color is a glowing garnet-purple. The flowers completely cover a tightly growing plant which makes a mound about 20 to 24 inches high. It surely puts life into a faded summer border and makes a fine, strong contrast with other Aster varieties.

Ambrosia

Three \$1.90, Doz. \$6.00, 100 \$32.50
A beautiful shade of peach-pink which is exceptionally bright even on cloudy days. Its rare color makes this one a strong competitor of Yolanda. The plant habit is excellent because it is a nice dense compact grower not too tall. When in full bloom its foliage is practically invisible and its cheerful color is most welcome in the autumn garden.

Aquilla

Three \$1.90, Doz. \$6.00, 100 \$32.50
The habit of this plant is somewhat unusual. It is almost cone-shaped, broad and upright. Grows about 24 to 30 inches high. This cone of green becomes a magnificent mass of lightest pale blue in autumn. The flowers are about 2½ inches across, semi-double, completely hiding the foliage.

Edwina

Three \$1.90, Doz. \$6.00, 100 \$32.50
Immense flowers in shapely pyramidal clusters of light violet-blue. A color which lights up the garden in autumn like few other flowers do. It is exceptionally clear and clean and sparkles in sunlight. Plants grow about 2 to 3 feet high with rigid stems and are profuse bloomers. Habit is neat and we consider this as one of the best hardy Asters available.

Erma

Three \$1.90, Doz. \$6.00, 100 \$32.50
The semi-double flowers are a beautiful light shade of orchid-purple. Flowers are about 1½ to 2 inches in diameter, clear and brightly colored. The plant grows about 15 to 18 inches high, is rigidly upright and rounded. The flowers occur in tight clusters in a most profuse manner.

Paloma

Three \$1.90, Doz. \$6.00, 100 \$32.50
Here we have unquestionably the truest in deep blue. There is no other Aster in our nursery nor have we seen one anywhere else that can equal it. The flower spikes are pyramidal in form and about 24 to 30 inches in height; profusely covered with blooms. Makes a beautiful show and looks particularly fine when planted with the white variety Alaska.

Samaria

Three \$1.90, Doz. \$6.00, 100 \$32.50
We consider this variety an improved Violetta. Flower clusters are free and upright. Deep campanula-violet would describe its color best. Grows about 30 to 36 inches tall. Stems are rigid and upright. Blooms are large, brilliant and clear.

Yolanda

Three \$1.90, Doz. \$6.00, 100 \$32.50
Here we have without a doubt the finest and truest pink in Asters. Several visitors, who saw this variety in bloom, referred to it as superb. The flowers are semi-double, 2 inches or more across and grown on upright spikes instead of in flat clusters as is the case in most Asters. Spikes are from 24 to 30 inches tall.

Its uniformity of habit and its remarkable freedom of bloom unquestionably make this the finest of all the Carpatice type Campanulas. It makes a charming low edging to a flower garden or along walks. Here's an exceptionally good iron-clad hardy perennial for the foreground of the border.

Carpatica, Wedgewood *Sold out for this season*
"Here is a gem of a plant," one of our visitors claimed as she saw it growing in our nursery last summer. We heartily agree with her. We did produce a big quantity of them before we dared offer them in our catalog because we know they will be snapped up quickly. Dozens of brilliant violet-blue flowers on almost rigid stems look skyward from a cushion of deep green foliage not over 6 inches high. A neat subject for edgings, in front of other plants or the rock garden. We think it is one of the finest of dwarf Campanulas to date.

Carpatica, White Wedgewood *Three \$2.15, Doz. \$7.00, 100 \$40.00*
This is the pure white form of the handsome Wedgewood variety. The plants are identical in shape, growth and floriferousness. Its pure white flowers on rigid short stems look like so many small, white cups. It is a perfect companion for Wedgewood.

A completely distinct and different color never before seen in Mums and we are frank to admit we can't describe it. Visitors call it old rose or rose ash with soft salmon-apricot overtones. The point is there is nothing like it in Mums nor have we seen this rare iridescent color or anything like it on any other flowers in our nursery. We consider Ashes of Roses the choicest and most distinct Mum in our collection. It flowers more freely than most varieties, blooms cover the plant completely; starts blooming in September and keeps on until frost. Flowers are fully double, about 3 inches across. The lusty, dark green foliage is carried right down to the ground; the plant alone is a garden ornament. Height 2½-3 feet.

Have you longed for a big, hardy Mum that would flower before those early October frosts? Well, here it is—a brilliant, glistening golden yellow beauty in full bloom by September 20th and so free that the stocky plant is almost obscured by its branching clusters of perfectly formed double flowers. Hardy and easily grown, it requires no special pinching or handling to produce flowers 4½ to 5 inches across—larger, if disbudded. Fine also for pot culture. NOTE: Occasional plants assume bronze-yellow tints, but are just as attractive.
- Fascination** *Three \$1.75, Doz. \$5.65, 100 \$28.00*
Lovers of the big in Mums will admire this "Amazon" of the fall garden. A large, shapely decorative often four inches in size, of a lovely silvery lavender-pink deepening at the center. NEW SUPER GIANT HIBISCUS

Blooms 10 to 12 inches in diameter

When, many years ago, the Giant Hibiscus were introduced, they created quite a lot of comment. The new Super Giants in many instances produce flowers which are 50% bigger or even more. A well grown plant with its immense flowers is quite a sight to behold.

The varieties offered were all produced from selected plants noted for their size and freedom of bloom. Increase from divisions is slow but the results justify the extra effort. Give these plants ample room and grow them in full sunlight, watering freely.

Clown. White with pink veins. Each \$2.50

Crimson Wonder. Deep dark crimson-red. Each \$2.50

Fresno. Light silvery pink giant blooms. Each \$2.50

Satan. Bright brilliant vermilion-red. Each \$2.50

Leonian Hybrid Hemerocallis *Three \$1.95, Doz. \$6.25, 100 \$35.00*

By crossing numerous species and hybrids, and recrossing and reselecting the plants produced in an almost endless process into fourth and fifth generations, Dr. Leonian has created the most remarkable series now in existence. In height they vary from 3 to 5 feet. They stand on stalwart stems. Their flowers are of every shade, from deepest burnt orange through flaming orange-red into amazing tints of pastel old rose and maroon shades, all with a clean and pleasant fragrance. We are distributing them unnamed and in units of not less than six hybrid plants. They will be carefully dug and budded so as to avoid duplication. What you now own in Day Lilies does not matter. What you will receive will be entirely different in color. Dr. Leonian's Hybrids are a fine lot of fascinating colors.

HEMEROCALLIS - Lemon Lilies

Hyperion *Three \$2.40, Doz. \$7.50, 100 \$47.50*

The giant Amaryllis-like flowers of Hyperion are citron-yellow and delightfully fragrant. It is one of the most prolific flowering plants ever seen. The stems are gracefully thin and have exceptional substance, about 40 inches tall, carrying delicately sparkling clusters of flowers, the soft color of which "carries" a great distance. Experts, as well as amateurs, consider Hyperion the finest pale yellow Hemerocallis available at a moderate price. Few plants surpass the beauty and vigor of a well-flowered clump of this wonderful Day Lily. It received an Award of Merit of the Royal Horticultural Society of Great Britain. Its graceful arching foliage always looks handsome. The flower buds will open in water. It is perfectly hardy, grows in dry, wet, sunny, or shady places. Blooms in July and August.

IBERIS - Candytuft

Little Gem (True Form) *Three \$1.85, Doz. \$5.75, 100 \$30.00*

Purity *Three \$1.95, Doz. \$6.25, 100 \$35.00*
A neat, evergreen, compact and low-growing plant with immense pure white flowers which cover the plant entirely when it is in bloom. This new variety is in our opinion the best of the dwarf Iberis. Its neat, compact habit and rich deep evergreen foliage make it an A No. 1 edging plant for flower beds or along walks. Its uniform habit creates a very neatly finished little edging.

***Sempervirens** *Three \$1.70, Doz. \$5.25, 100 \$25.00*
Covered with a sheet of white flowers in spring, completely covering its rich dark green foliage; a particularly fine plant for the border. Does well in light shade and therefore excellent as a ground cover in front of shrubs. May be used for edging to parks or walks. Little Gem, however, is more formal and upright for these purposes.

Blue Shimmer *Three \$1.15, Doz. \$3.60, 100 \$12.00*
Clear, sparkling white with an all-over pattern of clear blue stippling. The blue seems to be peppered on the white background in an even manner, rather than in the familiar buttonhole-stitch style. The flowers are extremely large and full. Certainly one of the most outstanding Irises of the past few seasons.

Casa Morena *Three \$2.15, Doz. \$7.00, 100 \$40.00*

China Maid *Three \$1.20, Doz. \$4.00, 100 \$15.00*
It is a soft pink, enhanced by an intriguing blending of golden bronzy buff and soft lilac at the edges of the petals. It is of rare charm and one of the handsomest of pink Iris. This is the best new pink at a reasonable price.

One of the outstanding Iris in the medium blue range. Large blooms of excellent form and proportion, quite ruffled. Sturdy growing. It draws the eye by its beauty in style, color and form. One of the most popular varieties.

Christabel *Three \$1.20, Doz. \$4.00, 100 \$15.00*

Fantasy *Each \$1.50, Three \$4.00, Doz. \$13.00*
Charmingly distinctive, this lovely rose and orchid-pink Iris with its brilliant tangerine beard always attracts attention. The flowers are exquisitely formed with just a touch of ruffling and the deep purple buds provide a striking contrast to the rose-orchid blossoms which have a touch of purplish raspberry about them.

Golden Majesty *Three \$1.20, Doz. \$4.00, 100 \$15.00*
Clusters of bold, gleaming deep gold uniform flowers on 3-foot stems place Golden Majesty among the top quality of yellow Iris. The color is rich and clear and stands out handsomely among other flowers. This Iris was originated by Salbach who considered it to be his finest yellow.

Grand Canyon *Three \$1.20, Doz. \$4.00, 100 \$15.00*
An odd blend of rather deep tones of plum and copper, and gold. Entirely different from any Iris. It is an Iris to be admired at close range and is especially suited to bringing indoors and associating with Oriental rugs. Attractively formed and delicately ruffled. About 40 inches tall, perfectly branched, and it flowers over a very long season. Very large.

Great Lakes *Three \$1.25, Doz. \$4.25, 100 \$18.00*
Winner of the Dykes Medal in 1942, this is the finest light pure blue. Of splendid mien with a pronounced flare; stiff, crispy petal texture, it is strikingly fine. Fine stems of good height, well branched. Rugged and hardy, we highly recommend it.

Gudrun *Three \$1.50, Doz. \$4.75, 100 \$20.00*
Winner of the Dykes Memorial Medal of the English Iris Society. A top notch white Iris among so many fine new white ones and by many judges considered the finest of all. It is a massive flower of purest snow-white, undoubtedly the largest and most massive.

Helen McGregor *Three \$2.15, Doz. \$7.00, 100 \$40.00*
Clear, pale blue, pure and uniform in color, the sensation of the Iris world the year of its introduction and worthy of all the honors which have been awarded this variety which will be a treasured Iris always. Of perfect form, flaring and daintily ruffled, very large, beautifully spaced on nice stems, it ranks supreme as a light blue.

Indiana Night *Three \$1.90, Doz. \$6.00, 100 \$32.50*
Lustrous, deepest, rich velvety purple, almost black. The finest and most satisfying dark Iris of a long series of seedlings from the famous Sable. 38-inch stems, well-branched with every good quality desired in an Iris. Midseason bloomer and long lasting.

Jane Phillips *Each \$1.50*
A new light blue that is deeper in color than Helen McGregor. We have seen no Iris which appears nearer true blue, and for that reason, other experts as well as ourselves consider it an outstanding new variety. It blooms freely, has good stems, and brilliantly proportioned flowers. A hardy, good grower which will be in great demand for many years to come.

Lady Mohr *Three \$1.20, Doz. \$4.00, 100 \$15.00*
A new and altogether different addition to the interesting Wm. Mohr family of Iris, this one brings a color combination previously unknown in the tall bearded group. Standards are oyster-white, huge and slightly fluted, with strong midribs. Falls are pale chartreuse or greenish yellow, with prominent veining. There is a very prominent dark patch surrounding the beard. The stalks reach a height of 4 feet and carry several open blooms at one time.

Mount Cloud *Three \$1.70, Doz. \$5.25, 100 \$25.00*
A tall, clean, and clear-cut white flower with smooth, polished substance. Veining at haft accentuates the pureness of this beauty. Considered one of the best and hardiest of the new white Iris.

Mulberry Rose *Three \$1.20, Doz. \$4.00, 100 \$15.00*
Aptly described by the name, this Iris is actually something new and different in coloring. Very tall stems hold the self colored bloom well aloft, and the branching is good. Most unusual color, it might be termed a deep pinkish mulberry, strongly shaded brown. The heavy bronze beard is an added asset.

New Snow *Three \$2.15, Doz. \$7.00*
A white Iris which is neither warm nor a cold white but is as white as new snow. The beard is full and bright yellow, adding a great deal of life. This is the only color in the flower, as there are no haft veinings or markings. Stalk is sturdy and well branched, 40 inches tall, the big flowers very much ruffled and flaring.

Nightfall *Three \$1.20, Doz. \$4.00, 100 \$15.00*
The falls are very velvety rich dark pansy-purple with almost no veining on the haft. Standards are several shades lighter than the falls, making a very striking color combination. Plushlike substance with a glistening sheen. 36 inches tall, well branched. One of the finest, if not the finest, of the dark Iris.

Ola Kala *Three \$1.25, Doz. \$4.25, 100 \$18.00*
Here is a deep yellow Iris that perhaps outdoes all others for depth of color and in addition its petals are heavily ruffled. Medium large flowers on nicely branched, 36-inch stalks. So yellow it is almost on the orange side. Considered one of the finest new Iris.

- Prairie Sunset** *Three \$1.70, Doz. \$5.25, 100 \$25.00*
All that has been said about this gorgeous creation is true, but it simply has to be seen to be realized. The blendings of peach, apricot, rose, copper and gold are so well done that one is at a loss to describe it in a manner that might be conceived in the mind of the listener. A fine big flower, and the color will absolutely stun you when first you see it, and every time you see it! Dykes Medal, 1943.
- Ranger** *Three \$2.15, Doz. \$7.00, 100 \$40.00*

A smooth blend of gold, copper and apricot melting into a true russet self. Wide standards, perfectly domed and flaring falls which ruffle at the edges make this a lovely Iris.
- Sable** *Three \$1.50, Doz. \$4.75, 100 \$20.00*
Almost black; a uniform shade of deepest blue-black-violet, with blue beard. Sable has every attribute that a fine Iris should possess, large size, reasonably tall stalks, thick substance and a wonderfully lustrous sheen. Everybody wants Sable.
- Solid Mahogany** *Three \$1.85, Doz. \$5.75, 100 \$30.00*
This grand new red is one of the finest dark Irises of recent years. Beautifully formed, the color is aptly described by the name. No haft venation and a deep bronze-gold beard accents the richness of the plush-like falls. Height 3 feet.
- Sunny Ruffles** *Three \$1.20, Doz. \$4.00, 100 \$15.00*
The name describes the Iris. Of a glorious new lemon-yellow-chrome, form is ruffled and the falls have a deeper border of gold. The buds are ruffled also and add to the beauty of the whole plant. A very choice variety.
- The Red Douglas** *Three \$1.50, Doz. \$4.75, 100 \$20.00*
Dykes Medal, 1941. This rich deep red-purple is still a favorite with all Iris lovers. The gigantic flowers seem to glow with inner lights of red. A bright orange beard is softened by a slight flush of brown at the haft.
- Tournament Queen** *Three \$2.15, Doz. \$7.00, 100 \$40.00*
A bright fuchsia-toned flower, flaring and of fine texture and lustre. The petals are serrated and are flexed enough so that portions of them are always highlighted. The beard styles are chartreuse with a fuchsia ridge down the middle. Very fragrant. Early flowering and hardy everywhere.
- Wabash** *Three \$1.20, Doz. \$4.00, 100 \$15.00*
Pure white standards and rich velvety deep violet falls bordered white, a most striking variety. Very tall, branched above the middle of the stalk with a profusion of large, slightly ruffled blossoms. Awarded the Dykes Medal in 1940.

Height is between 6 to 12 inches. In the fall it produces numerous airy pink sprays of flowers not unlike those of the "Silver Lace Vine." The broad glistening white petals which overlap, come in a double row, are long and curve slightly at the tips. The center of the flower is very small and soft canary-yellow. Stems are thin and rigid and about 2 to 3 feet long. As many as 15 to 20 flowers to a plant at one time. Flowers frequently measure 4 to 5 inches across, and will last longer than any other Daisy we have ever grown. The plants are compact, forming a tight, neat clump with long ornamental dark green foliage. It is the hardiest of the new Daisies and we consider it tops in every respect.

Dwarf Polyantha Rose Charlie McCarthy

A Rare, White, Prolific Flowering Cluster Rose

Charlie McCarthy is a lovely low-growing Rose. All of the lively qualities pertaining to Charlie are exemplified in the Rose. His scintillating wit is expressed in the foliage—fresh and sparkling. And like his steady stream of answers, the bushes are profuse with an unending show of flowers.

Though the plants grow old, they never grow up—rarely exceeding 18 inches in height. The creamy white miniature buds expand into pure white flowers approximately an inch in diameter.

The bushes are unique and novel in form, being globular or rounded like a freshly clipped Boxwood. The luxuriant foliage, so bright that it has the appearance of having been shellacked or polished, lends to the plants a snappy, tailored effect.

From spring until fall, all through the season, the plants are literally smothered in a glistening white snowbank of Roses. Like its namesake, the new Rose Charlie McCarthy, immaculately dressed, can always be depended upon for a top-flight performance.

Hardy Azalea Mollis

ONE OF OUR SPECIALTIES

Azalea Mollis can be handled and transplanted without balling. Bare root plants grow just as well and flower just as freely; we recommend bare root plants without reservation. It saves considerably in packing and freight. Bare root plants potted in Cloverset pots are a fine and profitable item for sales yards.

Azalea Mollis, contrary to general belief, do not require an acid soil. Beautiful specimens are being grown in Chicago as well as in Des Moines, Iowa. All they ask is a reasonably good garden soil and an occasional top dressing of cow manure to make them grow freely. They do not require a lot of water nor is it essential

to prepare soils with a lot of peat or leaf mold. While they do quite well in shade, they prefer full sun. To insure a heavy mass of blooms each year, it is recommended that the faded flowers be removed and not permitted to go to seed.

Hardy Azalea Mollis Named Varieties

Here we offer a collection of the finest colors in named varieties. These plants have been grafted and are four years old. They are about 10 to 15 inches in height, depending on the variety. Some are taller growers and some bushier than others, according to their habit and natural form. Each variety offered is a choice one and planted by the thousands in Europe where their value and merit has been appreciated for many years.

Chevalier de Reali Each \$2.50, Three \$7.00, Doz. \$25.00

This is considered by many experts as the best pale yellow Azalea Mollis. Its lovely straw-yellow flowers make a fine show over a long period and blend perfectly with the other varieties or it makes a good background for Tulips.

Directeur Moerlands Each \$2.50, Three \$7.00, Doz. \$25.00

Probably one of the handsomest of the Azaleas. Produces handsome clusters of soft golden yellow flowers in abundance. A beautiful variety. Its magnificent color blends superbly with other spring flowers.

Azalea Mucronulata

One of the very first Azaleas to flower, opening rosy lavender flowers the same time as Forsythia, thus lengthening by several weeks the blooming period of the Azaleas. It will succeed in dry locations and it likes some lime. Can be grown quite successfully in slightly alkaline soils. Planted in front of a Forsythia it makes a handsome combination.

12-18 inches high, Each \$1.75, Three \$4.75, Doz. \$17.50

18-24 inches high, Each \$2.50, Three \$7.00, Doz. \$25.00

Koster's Brilliant

Each \$2.75, Three \$7.75, Doz. \$27.50

This variety is one of the most brilliant of the Azalea Mollis. Its fine clusters of flowers are a fiery brilliant coppery flame color and cover the plant completely. There are no red Azalea Mollis but this variety comes nearest to this color. Be sure to plant it in full sunlight because when grown in the open it shows at its best.

Lemonora

Each \$2.50, Three \$7.00, Doz. \$25.00

The upper flower petals are Indian yellow while the lower ones are a shade lighter and have a few small emerald-green spots in them. Flowers and flower clusters are large and a beautiful sight when in full bloom.

Queen Emma

Each \$2.50, Three \$7.00, Doz. \$25.00

This variety is outstanding. First of all, it is a strong grower, making a fine plant very quickly. It flowers profusely year after year. The big clusters of flowers cover the plant completely, and as for color, there are not many that can match it. Color is sparkling clear, soft terra cotta with bronzy buff glow. A wonderfully fine combination of choice pastel shadings. Be sure and have this one in your garden.

Azalea Pontica

They flower after the Azalea Mollis have finished flowering.
(Also Known as Hardy Ghent Azaleas)

Their blooming time, requirements and general habit are the same as those of Azalea Mollis. As to hardiness, they are even harder but their special merit is the unusual range of colors which is available in this group. While the flowers of the Giant Azalea are not nearly as large as those of the Mollis varieties, their brilliance and variation of tints place them along the choicest spring shrubs. Most desirable in colder sections of the country because of their bud hardiness they never fail to bloom.

Ultimate height of plant varies from 3 to 5 feet and they never fail to flower. Acer Palmatum Atropurpureum—Red-Leaved Maple with Cut and Lacinated Foliage

ALTHEA; HIBISCUS (Rose of Sharon)

Celestial Blue 18-24 in., Each \$1.30, Three \$3.60, Doz. \$12.50
The gorgeous single disclike blue flowers are produced in large amounts. Planted with our white variety, W. R. Smith, it makes a most handsome color effect in the summer border.

Woodbridge 2-3 feet, Each \$1.30, Three \$3.60, Doz. \$12.50
This is an improvement over Rubis. Produces very large, wide-open, flaring flowers of a fine, clear rose-pink color. The best and most brilliant of the pink Altheas. Its freedom of bloom is outstanding.

W. R. Smith 2-3 feet, Each \$1.30, Three \$3.60, Doz. \$12.50
Large, disclike, pure white flowers which open flat and are produced in great numbers from early July until frost. Most white Althea blooms do not open fully and therefore are not showy. W. R. Smith is the one exception. Its flowers are large, open wide and are superb. Replaces Totus Albus as well as Jeanne d'Arc.

Hamabo 2-3 feet, Each \$1.30, Three \$3.60, Doz. \$12.50
This most interesting cheerfully colored Althea is not new but practically unknown in this country. It is a great favorite in Europe and we can quite understand why. For several years we have tested it at Wayside and found it as hardy as any of the others. But it is so arresting that everyone visiting us has wanted a plant of it. Flowers are white and red, big, charmingly colored, brilliant and gay, and contrast beautifully with the dark green foliage.

ABELIA - Glossy Abelia

Grandiflora Each \$1.00, Three \$2.75, Doz. \$8.50

Recommended for a sunny, warm shrub border in groups or alone. Highly useful as a hedge for sunny or partly shaded situations.

ACER - Norway Maple "Crimson King"

Platanoides Schwedleri nigra (Plant Patent No. 735)

About ten years ago a fascinating purple or maroon-leaved Norway Maple tree was sent to America from Europe. It created the same sensation over here as it did in Europe. Several specimens were propagated and planted along the East Coast as well as on the Pacific Coast for observation. The results have been most gratifying. It proved perfectly hardy and happy where Maples grew and it retained its magnificent leaf color throughout the entire summer. The effect is not unlike that of the Copper Beech, but in addition, the tips of the branches and the young foliage are of a lighter shade and glisten brilliantly in the sun. One would think the tree was in bloom. Here truly is a rare thing in trees, a superb plant for lawn, small or large; street trees or specimen for contrast among other trees. Unfortunately not many big trees are available so we decided to offer our customers what is known as a "whip." This is a two-year, grafted, single stem tree about 6 to 7 feet tall without side branches.

Wholesale price, Each 75c, Three \$2.00, Doz. \$6.00, 100 \$40.00

Our retail price, Each \$1.25, Three \$3.50, Doz. \$12.00

This dwarf Buddleia fills a long-felt want for a low growing, all summer flowering shrub of which there are so few. Not over 3 feet high and about the same in diameter, it forms a green mound studded with literally a hundred or more short-stemmed flower spikes with pure white blooms the same as those of Buddleia Peace.

CULTIVATED LARGE-FRUITED BLUEBERRIES

The new, named varieties of cultivated Blueberries are not self-fertile. Consequently, a bush grown by itself will not bear fruit, but where six or more plants of different varieties are grown in close proximity, perfect fertilization takes place, and abundant crops of huge, luscious berries result. Consequently our Blueberries are sold in units of six plants (mixed varieties), or in blocks of 24 plants or more (mixed varieties). **Orders for single plants will positively not be accepted for reasons noted above.**

18-24 inch size, \$4.50 per unit of 6 plants, Doz. \$8.50, 100 \$65.00

It is covered from August till autumn frost with numerous clusters of powdery blue fringed flowers. This shrub grows about 18 to 24 inches tall and is perfectly rounded, making a small mound about 2 feet in diameter. The foliage is lanceolate and slightly toothed and silvery green in color. A truly worth-while plant for the flower border as well as for in front of the shrubbery border.

Heavenly Blue (Plant Patent No. 1091) Three \$2.75, Doz. \$8.50, 100 \$60.00, 1000 \$550.00
A delightfully deep blue-colored autumn flowering shrub. It is the dark blue form of Caryopteris Blue Mist which Wayside Gardens introduced several years ago. Heavenly Blue is our own origination; the result of crosses and selections made at Mentor. Heavenly Blue is upright in growth. When mature, it is about 15 to 18 inches in diameter and 18 to 24 inches tall. One shrub will produce 30 or more beautiful deep blue flower spikes, a color which we know is quite rare at any time and particularly so in the autumn garden. It does best in a light soil; in fact, the sandier the better, and must be grown in full sun. It comes to perfection in a warm, dry, sunny spot. We consider this new shrub one of the finest things available for rich autumn color.

Our retail price: Each \$2.00, Three \$5.75, Doz. \$20.00

CERCIS - Redbud

Chinensis 2-3 feet, Each \$2.00, Three \$5.75, Doz. \$20.00

It is shrub-like in growth, and when in bloom every branch and twig is covered with thousands of bright purple blossoms almost double the size of the common variety and noticeably darker. Transplants readily, bare root. Ultimate height from 6 to 8 feet.

CLETHRA

The Pepper Bush is a compact neat plant of many slender, upright branches rarely over four to five feet high. Each branch is topped with finger-like clusters of small deliciously scented pink flowers. To many people, the fragrance is reminiscent of pepper; hence, its name. This is a very fine and useful shrub, especially for low moist places or damp woodland conditions. It grows equally well in full sun or shade. Here is the rare pink form of the much loved white Pepper Bush, giving bloom when most needed in late summer and early autumn with fine dark green foliage to boot.

CORNUS - Dogwood

All plants offered will have roots balled in moist peat. This eliminates transplanting losses.

Florida rubra

30-36 inches, peat ball Each \$4.00, Three \$11.00, Doz. \$40.00

The Pink Dogwood is similar in all respects to the common variety except that the flowers are a beautiful shade of pink.

White Cloud

30-36 inches, peat ball Each \$3.50, Three \$9.75, Doz. \$35.00

From thousands of seedlings of white Dogwoods, we selected several years ago an outstanding variation. This distinctive tree was replanted and grown by itself for further observation until we were satisfied we had something extra fine in white Dogwoods. It is outstanding in particular for the immense amount of flowers it produces as well as the rapidity with which it starts flowering so freely. At opening the flowers give a creamy yellow effect which, after a few days, changes over to white. When in bloom the tree is literally a white cloud; the foliage is almost not to be seen. Instead of just planting ordinary seedling trees, particularly when space is limited, try this new variety. It will reward you with greater masses of blooms for all your life.

WHITE DOGWOOD

Special Offer of Medium Sized Trees

We are able to offer you a real bargain. Two years ago we were very fortunate in obtaining a remarkable germination of seed with the result that we now have several thousand fine young trees, more than our normal requirements call for. So here's your chance to plant large numbers of them. Plants will be nicely branched, about 12 to 15 inches high.

100 plants for \$45.00, 1000 plants for \$400.00
250 plants are sold at 1000 rate.

CORNUS KOUSA CHINENSIS

Chinese Dogwood was brought to the Arnold Arboretum from China by E. H. Wilson in 1907. The flower heads are extremely large, frequently 5 to 6 inches across, the white bracts overlapping the button-like mass of real flowers in the center. Experts have acclaimed this Dogwood as the finest of Chinese plants introduced to America. Its flowers are produced in June long after American Dogwood has bloomed and remain in excellent condition for nearly a month. The fruits are like large strawberries, and very much enjoyed by the birds. Its foliage turns scarlet in autumn. This is a rare tree known only to a limited few. It is a magnificent contribution to the American gardens and we urge you to plant one as soon as possible so you may enjoy this Oriental beauty soon. Ultimate height about 12 to 15 feet. It is much harder than our Dogwood and will flower and grow profusely where the American Dogwood would not survive.

4-5 feet, Each \$4.50, Three \$12.50, Doz. \$45.00

CORYLUS

Maxima atropurpurea (Purple-Leaved Filbert)

Sold out for this season

For a rich display of bronze foliage there is not much better than the Purple-Leaved Filbert. It is a much branched shrub covered from top to bottom with fine, bronze leaves which make a pleasant break in the monotony of the green leaves in the shrubby border. The richest and deepest colors are obtained when it is grown in full sun. It grows well in shade but it then loses part of its coloring. Maximum height about 10 feet. Can be kept any height up to 5 feet with pruning. Hardy anywhere! A fine plant for the lawn as a single specimen. Superb foliage for cutting and use with flowers.

COTONEASTER - The Queen of Shrubs

A beautiful hardy dwarf Cotoneaster from Western China. This little known variety grows about 2 feet high with arching branches weighted down during the autumn with masses of bright crimson fruits about the size of a Cranberry. The foliage is shiny green and beautiful through the year in mild climates while in cold parts of the country, it loses its leaves late in the fall. Perfectly hardy. *Apiculata* is not subject to red spider or other troubles. Its fruit is fully as large as a Cranberry and more brilliant.

Divaricata

Bare root, 18-24 in., Each \$1.00, Three \$2.75, Doz. \$ 8.50, 100 \$60.00

CYTISUS

Praecox (Warminster Broom)

Each \$2.00, Three \$5.75, Doz. \$20.00, 100 \$150.00

One of the most beautiful of all May-flowering shrubs. Grows about 4 to 5 feet high. The twiggy evergreen branches are pendulent and in May are hidden under a mass of sulphur-yellow, pea-shaped blooms. The effect created by this shrub when in bloom is most unusual and one of the highlights in your garden. Our original stock plants came from the Arnold Arboretum in Boston where year after year they continue to make a grand display. This is no new shrub but one not easily propagated in the nursery. Therefore, it is not generally offered. We send you 3-year plants that already have flowered in 5- or 6-inch pots. Pot plants invariably establish at once and this is the best way to transplant them.

CRATAEGUS OXYACANTHA - English Hawthorn

Paul's Scarlet Thorn 5-6 feet, Each \$3.50, Three \$9.75, Doz. \$35.00

This is a brilliant rosy red, double-flowered variety.

Autumn Glory

Sold out for this season

This magnificent Hybrid Thorn grows into a medium sized tree about 15 to 18 feet high. Makes a shapely head and has deep green foliage. In spring it is very attractive with its many big clusters of white blooms. But in early autumn it really is a sight to behold when the immense clusters of giant berries turn a brilliant red. In our opinion it is even more spectacular than the well known and popular Mountain Ash. The fruit remains on the tree well into the winter. A rare, beautiful and unusual small tree you will enjoy in your garden for many, many years.

15-18 in., Each \$2.00, Three \$5.75, Doz. \$20.00, 100 \$150.00

This fine flowering Quince originated in England and is a choice low growing plant. Eight-year-old specimens in our nursery are about 16 inches high and 18 inches across. It forms a small mound which in early spring is completely covered with big vermilion-red flowers. An ideal variety for planting in front of the shrub border or foundation plantings; it may also be used for low edgings. Knaphill Scarlet will unquestionably become as great a favorite here as it is in Europe.

Nivalis 2-3 feet, Each \$2.00, Three \$5.75, Doz. \$20.00, 100 \$150.00

This is the best pure white Quince. The sparkling white flowers contrast well with the dark green foliage. A very handsome flower for cutting as well as a fine early flowering shrub for the border.

Rowallane

2-3 feet, Each \$3.00, Three \$8.50, Doz. \$32.00, 100 \$250.00

This is a recent new variety from England. It makes a low growing plant about 24 to 30 inches high and as wide. Foliage good rich dark green which appears after the plant has flowered. The blooms are plentiful and rich vermilion-red. Intensely bright and sparkling, a splendid plant for the foreground of the shrub border.

Stanford Red

2-3 feet, Each \$2.00, Three \$5.75, Doz. \$20.00, 100 \$150.00

This new hybrid we believe to be the finest red hardy Quince in cultivation. The flowers are extraordinarily large, open geranium-red and deepen to an intense blood-red of great strength and carrying power. It is excellent for cutting, the flowers lasting a long time and in addition, it's almost thornless.

NEW UPRIGHT CYDONIA, SPITFIRE

(Plant Patent No. 830)

Perfect for Hedges and Single Specimens

Here is a fine early flowering shrub with excellent habit. It grows upright to a height of about 6 to 7 feet when mature. It may be held down to 4 to 5 feet if you wish by simply topping it once or at the most twice a year; side pruning is not necessary. The flowers are large and deepest crimson-red. The upright stems are covered with them from the ground up. You can well imagine what a brilliant effect is made when Spitfire Cydonia is used for a hedge. The plants are not more than 2 feet across when mature so that it is an excellent subject to use as a single specimen as well as in shrub plantings where space is limited. No flower buds have ever been killed nor has there been any damage from frost to the wood in temperatures as low as 15 degrees below zero. We have had this plant under test for ten years and think it is a fine addition to flowering shrubs that may be successfully used for hedging as well as specimen plantings. We offer plants 2 to 3 feet.

Wholesale prices: Each \$2.00, Three \$5.75, Doz. \$20.00, 100 \$150.00

Our retail prices: Each \$3.00, Three \$8.50, Doz. \$32.00

DAPHNE CNEORUM

The flowers completely cover the plant not only in spring but again in early autumn. As an edging plant in front of evergreens or shrubs, it is unequalled. It also forms a splendid low hedge along garden walks and around flower beds.

This beautiful strong hybrid came to us from France a few years ago. It produces large, single, milk-white flowers in handsome pyramidal clusters. Shown in England a few years ago, received an award of Merit from the Royal Horticultural Society. Its pendulant growth and modest height, 3 to 4 feet, make it an excellent shrub for foreground planting. Last, but not least, is the enormous amount of flowers which completely cover the bush at flowering time. Noted particularly for its fine pendulant form and neat habit.

Kalmiaeflora Each \$2.00, Three \$5.75, Doz. \$20.00

A low growing bushy shrub. The branches are slender and slightly arching. Covered in late May and early June with Kalmia-like pink flowers. Again, we repeat, a nice small shrub for the small garden.

FUCHSIA

Magellanica From 2½-inch pots, Three \$1.70, Doz. \$5.25, 100 \$25.00

Came to us from the New York Botanical Garden, where it has proven entirely hardy. It is in bloom all summer long until stopped by frost. The ruby-red, pendent flowers are produced by the hundreds, flowering just as freely in full sun as in light shade. A most interesting plant for the flower border or rock garden, where it fits in perfectly, blooming all summer. Like all Fuchsias, they are especially adapted for shady locations. Protect anywhere north of Philadelphia.

Magellanica alba

From 2½-inch pots, Three \$1.70, Doz. \$5.25, 100 \$25.00

Has the same habit of growth as *Magellanica* but the pendent flowers are bluish-white. A charming variety which also is somewhat hardier.

Magellanica folio-variegata

Three \$1.85, Doz. \$5.75, 100 \$30.00

This is the variegated or marbled foliage form of *Magellanica*. The leaves are handsomely colored in shades of pink, bronze, and soft yellow. This foliage coloration is most attractive and very much increases the interest and usefulness of this hardy Fuchsia.

This new Forsythia is without question the loveliest of all the Golden Bells. When seen in bloom, it is a sight not easily forgotten, its large pale yellow flowers completely cover the branches in such masses that they literally bend with their weight. It would not be far amiss to say that it produces twice the number of blossoms of the common Forsythias. Further, the pale yellow color is very pleasing and brilliant, infinitely more attractive and cheerful than that of the varieties now in general use.

FORSYTHIA, LYWOOD GOLD

The branches are erect and literally smothered under golden yellow flowers from top to bottom. Not only are the flowers produced in the most profuse manner but the individual blooms are better and fuller in form as well as of greater substance, apparently never minding bad weather. For a magnificent show of golden yellow, there is nothing better. It is superb for cutting and flowering in the house during the winter months. It has been carefully tested for several years in Mentor and we recommend it without hesitation. Ultimate height 5 to 7 feet depending on conditions.

ILEX CONVEXA

Hedging Size

It is a very fortunate fact that it is possible to transplant the smaller sizes of *Ilex convexa* without a ball of earth, and obtain complete success, providing the transplanting is done before the end of May. A reasonable amount of watering shortly after planting is advisable although *Ilex convexa* does not do well in overly wet soil. It prefers good drainage and full sun. Its popularity is spreading and it is being used in increasing numbers. We can well understand this because we do not know of many other plants as handsome as this. We have grown a number of bushy plants for hedging purposes, and they will average from about 10 to 15 inches or better.

Crimson Brilliant

(Plant Pat. No. 939)

**The Most Brilliant Red
Flowering Crab to Date!**

This new brilliant red, semi-double Flowering Crab comes to us from Des Moines, Iowa. We are indebted for this beautiful tree to Mr. A. F. den Boer, who is recognized as America's leading expert on Flowering Crabs. More than 27 years of breeding and selecting have gone into the creation of this, his choicest specimen. First of all, it is very hardy and can be grown anywhere. It is of medium size; when mature it is about 15 feet tall so it can be grown in small gardens without crowding out other things. It grows quickly and will flower a year after planting, but as the tree grows older it increases in floriferousness. The fruit is purple-red in color and about the size of a Cherry and the flesh is also red. The six-year-old specimen illustrated was completely covered with crimson flowers of a shade not unlike that of the well known Darwin Tulip, City of Haarlem. Crimson Brilliant Crab is without any question the finest of the red Crabs. There is nothing that can compare with it and it is our choicest introduction of new Crabs.

This giant-flowered Mockorange, with its pure white blooms as large as those of Dogwoods, will be sensational in your garden and we predict will replace many of the more common and indifferent shrubs. This magnificent hybrid came to us a few years ago from France. It has been carefully tested and not found wanting. Hardy, of easy culture, grows most anywhere, good upright habit and covered with immense blooms which slightly lack being 3 inches in diameter.

Belle Etoile (Tinted Mockorange)

3-4 feet, Each \$1.10, Three \$3.00, Doz. \$10.00, 100 \$70.00

The milky white flowers are most unusual in that they have a conspicuous, light purple blotch in the center. It's a vigorous, but neatly growing shrub, develops with age into a good looking plant of about 5 feet in height.

Splendens

Each \$1.50, Three \$4.00, Doz. \$15.00, 100 \$100.00

We are indebted to Dr. Wyman of the Arnold Arboretum for our stock of this fine Mock Orange. The flowers are borne in groups of five and noted for the brilliant yellow stamens. The flowers are single, 1½ inches in diameter, produced in immense quantities in mid-June.

Virginalis 2-3 feet, Each \$1.10, Three \$3.00, Doz. \$10.00, 100 \$70.00

This is perhaps the most popular of the double-flowered Mockoranges, and one of its habits is to produce a few flowers throughout the summer and fall after its normal blooming period. Plants grow rather tall, 7 to 9 ft., so this variety should always be planted in the background.

FLOWERING PLUMS

The deep bronzy purple foliage of this small tree is its great attraction, however, the thousands of pink, single flowers in spring are not to be overlooked. Most "purple" leaved trees lose much of their color throughout the summer, but this is not the case with this special selection of ours recently imported from England. Its foliage is of the deepest shade of purplish red.

Pissardi rosea fl.-pl. (Veitch's Double Pink Flowering Plum)

In addition to the delightful display of double pink flowers, you will enjoy the bronze colored foliage as well as the delicious small, sweet Plums which ripen in early autumn.

Triloba (Dwarf Plum)

2-3 feet, Each \$1.50, Three \$4.00, Doz. \$15.00

Syringa - Lilacs

New Lilac "Primrose" (Plant Patent No. 1108)

In Europe this is referred to as "the Yellow Lilac." A beautiful display of flowers could be seen at the famous Chelsea Show for 1952 in London where it created much comment. To call it "yellow" is taking liberties. It would be more accurately described as pale yellow. There is no question but what it is the only Lilac in existence of its color. It is handsome and makes a beautiful display which contrasts well with the lilac, blue and lavender shades.

CLARKE'S GIANT LILAC (Plant Patent No. 754)

When we say the "biggest and best" Lilac in existence, we mean just that! It is immense in every respect. Its leaves are bigger, it grows better, its flower trusses are larger, the individual flowers are of greater size than in any other variety we know about. It is safe to say they attain a length of 12 inches and are about 7 to 8 inches wide at the base of the cluster. It may sound like a big statement but we here feel that it would be difficult to praise this magnificent novelty too highly. The color is soft gentian-blue when fully open. The flower clusters are carried well above the foliage. The fragrance leaves nothing to be desired.

HYBRID LILAC SPECIES

THE DAPHNE LILAC

Microphylla superba 18-24 in., Each \$2.50, Three \$7.00, Doz. \$25.00

Graceful, slender stems; mahogany-red buds opening to soft pink panicles of small individual florets. The flowers produce a two-tone effect that is most pleasing and novel. The main truss is on top of each stem and smaller trusses are set down the branches, so that the entire plant forms one large bouquet. Blooms again in the fall. Sweginflexa 18-24 in., Each \$2.75, Three \$7.75, Doz. \$27.50

A handsome Hybrid Species of neat clean growth, makes a fine looking shrub about 6 to 7 feet tall when fully grown. At the end of May when the French Hybrid Lilacs have finished blooming, Sweginflexa produces a profusion of long, graceful flower panicles of perfect form. The flowers are long tubed, reflexing at the tip, delightfully fragrant and a soft coral-pink or empire-rose.

CUT LEAF PERSIAN LILAC

18-24 in., Each \$2.00, Three \$5.75, Doz. \$20.00, 100 \$150.00

A dense, compact plant with good foliage which, at blooming time, is completely covered under a tremendous amount of bloom. We know of no other Lilac which flowers so prolifically and responds so splendidly under what might be termed "indifferent" treatment. It blooms ahead of the French Hybrid Lilacs and the flowers do splendidly when cut. The ultimate height depends much on soil conditions. Average would be about 7 to 8 feet and almost that much across.

Viburnum Carlcephalum -- The New Fragrant Snowball

(Plant Patent No. 776)

This is the famous and splendid Hybrid from *V. Carlesi* and *V. macrocephalum*, which originated in England just before the war. The originator turned this wonderful shrub over to Wayside Gardens for introduction in this country.

It is absolutely hardy and has gone through several winters here in Mentor with temperatures as much as ten degrees below zero. It is of branching habit and quick growth, growing about six to seven feet high and can be pruned to any size or shape desired. Does equally well in acid soil or those which are alkaline.

It is a most profusely flowering shrub with large cymose clusters of blossoms which may be as much as six inches across, rarely ever smaller than four inches, either flattened or globular, mostly the latter. The flowers are exceedingly fragrant, rivaling its seed parent.

It is a deciduous shrub and carries a wealth of foliage. The leaves are practically identical with those of *V. Carlesi* but in the autumn are brilliantly colored.

Golden Vicari Privet makes a superb golden edging to walks or beds. It can be trimmed to remain 12 to 15 or 18 inches tall. Being of slow growth, it does not require frequent pruning but by the same token, it takes several years to produce a fair sized plant in the nursery. It may also be used to good advantage as an individual specimen in a planting in front of the house or shrubbery border. As to its hardiness, we have tested it in Mentor now for six years and found it completely hardy. Should be grown in full sun for best color.

ILEX CONVEXA

Hedging Size

It is a very fortunate fact that it is possible to transplant the smaller sizes of Ilex convexa without a ball of earth, and obtain complete success, providing the transplanting is done before the end of May. A reasonable amount of watering shortly after planting is advisable although Ilex convexa does not do well in overly wet soil. It prefers good drainage and full sun. Its popularity is spreading and it is being used in increasing numbers. We can well understand this because we do not know of many other plants as handsome as this. We have grown a number of bushy plants for hedging purposes, and they will average from about 10 to 15 inches or better in height. Nice tall well grown plants. Space them 12 to 15 inches apart and before many summers go by, you will have a lovely medium size evergreen hedge you'll enjoy always.

Ligustrum Sinense

The Best Barberry

Drought Resistant Mentor Barberry

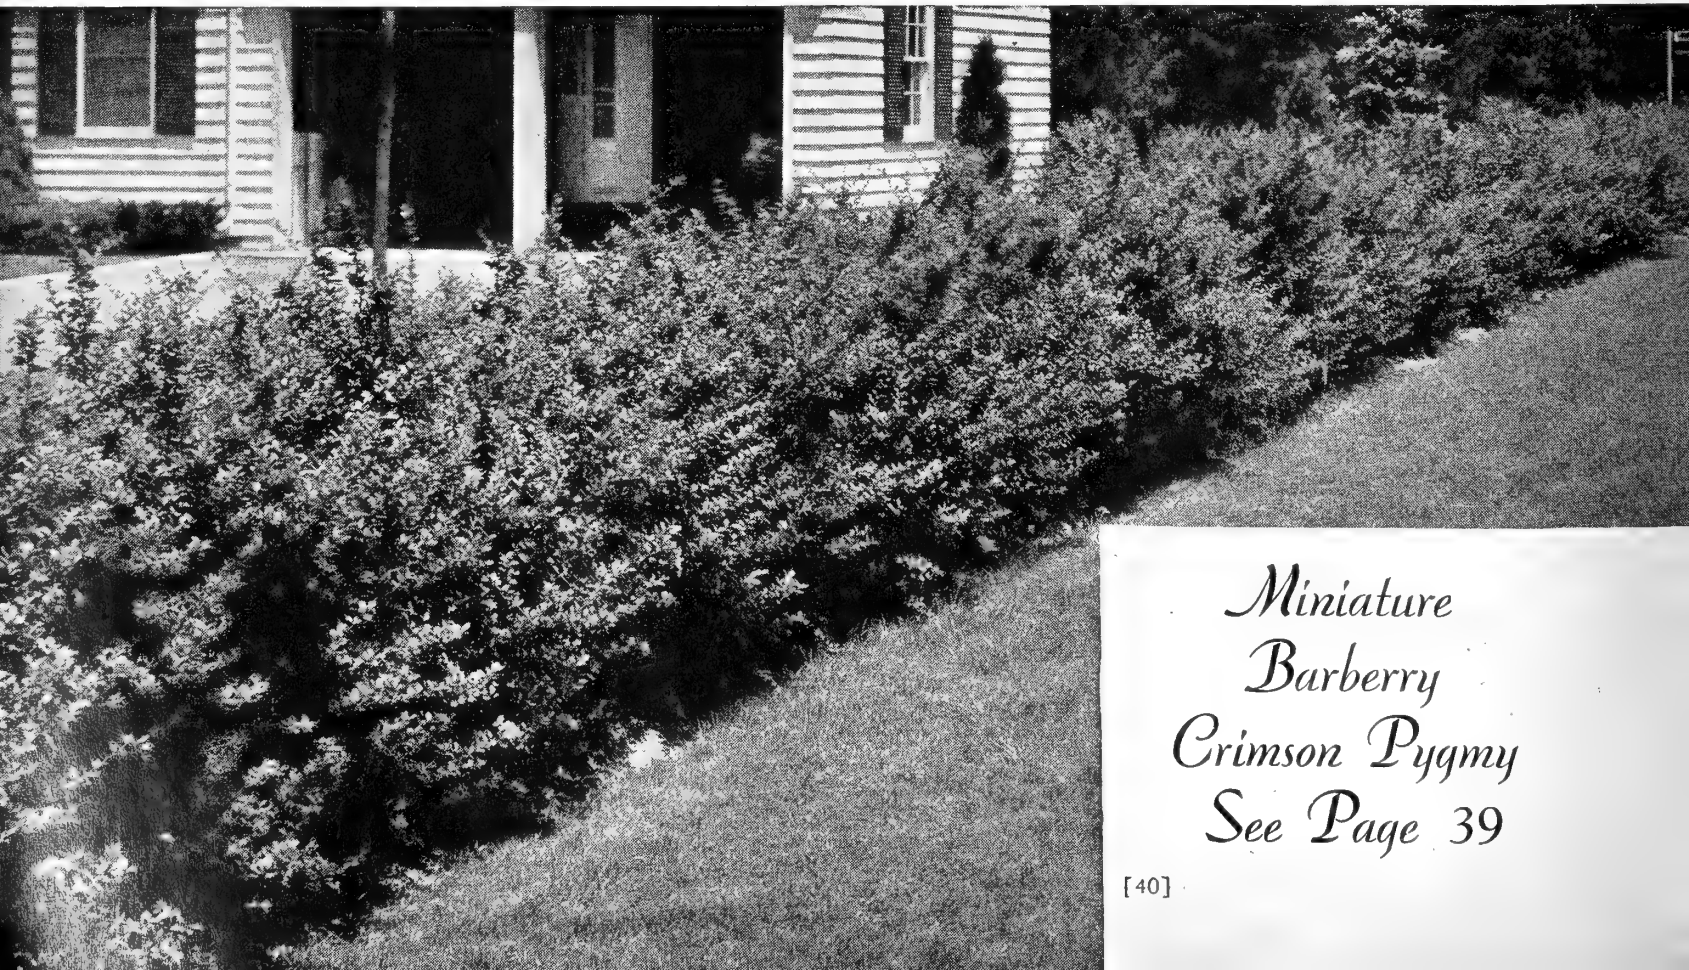

No blight—no pruning.

BERBERIS MENTORENSIS. (Plant Patent No. 99.) In Ohio the leaves remain green until after the holidays. In Kansas, Oklahoma, Utah, and the Southwest, *Berberis Mentorensis* is evergreen and considered the **finest evergreen plant for hedges.** It is amazingly satisfactory growing around areaways or close to dry foundation walls, and does an outstanding job in city gardens, either in single specimens or as a hedge. Its unusual ability to withstand heat and drought is nothing short of wonderful. For hedges plant in a single row, 15 to 18 inches apart for best effect.

Untrimmed Hedge of Berberis Mentorensis Showing Perfect Natural Hedge Form Third Year After Planting 15- to 18-inch Plants

Ligustrum Sinense (Chinese Privet)

This is a very fine hardy Privet. It is upright, bushy and twiggy in habit and not too rapid a grower. It makes a beautiful dense hedge which is very formal and neat even though not pruned. In our part of the country, it usually remains evergreen. Exceptional weather conditions may cause it to drop part of its foliage late in winter. This, however, rarely happens here and it certainly would not occur where temperatures are milder. Our plants originally were obtained from the Arnold Arboretum in Boston where it has proven to be most satisfactory even though foliage occasionally burns under extreme weather conditions as it also does in Mentor.

RED-LEAVED BARBERRY

(*Berberis Thunbergi Atropurpurea*)

Beautiful new red-leaved sport of the Japanese Barberry, prized for its bright foliage the entire season. Rich, lustrous bronze-red, like the richest red-leaved Maples—becoming more brilliant and gorgeous in summer, changing to vivid orange-scarlet in autumn. A leaf coloring unequalled by any shrub, is followed by brilliant scarlet berries all winter. To develop its high coloring at all seasons plant in full exposure to the sun. Adds distinction to any planting. Makes a perfect color companion, immune to rust and disease.

THORNLESS BARBERRY

Barberry is used more for hedges than any other shrub and justly so. It performs the function of a hedge splendidly and at little cost. Its ease of culture as well as its brilliant fruit and autumn foliage make it the number one plant for that purpose.

Very often a hedge is desired for a dividing line or along the drive to the garage or specimen plants of Barberry are required in a mixed planting of shrubs. The common Barberry in such locations often is a nuisance because of its thorns. Our new **Thornless Barberry** should be used wherever the need of protection provided by the thorns of the common Barberry is not required, along private drives, walks near entryways where damage to clothes and particularly stockings is possible, use the **Thornless Barberry**. It is even more handsome in form and just as colorful in fall as the common Barberry. You will be proud of such a hedge. It will be easy to keep clean and it is handsome in fall as well as in summer.

Hydrangea Petiolaris—Climbing Hydrangea

Two Wayside Specials for 1957

AMPELOPSIS - Ivy

Lowi 3-yr., pot-grown, Three \$2.75, Doz. \$8.50, 100 \$60.00

The small-leaved Boston Ivy is a charming self-clinging and quickly climbing vine. The leaves are small, palm-like and deeply lobed, turning into beautiful autumn tints before falling. This variety is especially well adapted to cover house walls as well as stone gate posts or low walls. The close fitting short-stemmed leaves do not allow birds to nest. Its effect is tracery-like and does not completely cover the brick or stonework. It is quickly replacing the common Boston Ivy or Veitchi variety.

Flowers in large, flat clusters, studded with large, flaky, sterile blooms which are very showy and fragrant. We have a fine stock of these in 4-inch pots with runners about 2 feet long.

Tree Wisterias

No more lovely sight can be imagined than a Tree Wisteria in bloom. The purplish blue flowers are produced by the hundreds and completely cover the tree during May, transforming it into a thing of sheer beauty. In formal gardens Tree Wisterias are indispensable. On the lawn they develop into beautiful specimens and live for generations, increasing in beauty and dignity each successive season. The plants we offer are grown on stems about 4 feet high and the crowns are about 2½ to 3 feet in diameter. Every plant has bloomed before it leaves our nursery.

In the garden the golden-leaved Honeysuckle makes a colorful display which lasts well into the winter. In milder climates the leaves are retained throughout the winter. Flowers are buff-yellow and as fragrant as the common Honeysuckle.

Henryi 1-yr., No. 1, Three \$2.60, Doz. \$7.25, 100 \$50.00
The Evergreen Honeysuckle. There are practically no vines which retain their foliage during the winter in the colder parts of the country. Therefore, the Henryi Honeysuckle is a very valuable variety. Its long clean dark green leaves remain on the vine all winter. The flowers, while fragrant, are of no importance, but the blue-black berries produced in autumn add materially to the charm of this plant. Does well in shade and is also an excellent windbreak. A glorious Tulip on a 29-inch stem. Plant it together with Ideal Darwin Glacier, for stunning effect.

Abraham Lincoln Doz. \$2.50, 25 \$4.50, 100 \$16.00

For a number of years, American visitors to the Grulleman's Bulb Nurseries have consistently picked one variety which appealed to them more than any other. It is outstanding and a magnificent flower. When last spring, a group of visitors was told it would be introduced next year in America, one suggested it be named Abraham Lincoln as he said—a great Tulip named for a "great man." The color is bright crimson-maroon, outer petals shaded somewhat darker, close to chestnut-red, base dark blue. The flower is larger than usual and of excellent substance. Height 29 inches. Fine old, striking flower, stem not too tall, about 25 inches. We believe this to be the largest Tulip flower ever raised. It makes a tremendous show in the garden and in addition has remarkable lasting qualities. Looks at its best in front of a dark green background and would be superb in mass plantings.

A giant among pure white Tulips, white base and white anthers. Tremendous oval-shaped flower of great substance, will last three weeks in the garden or when cut. Rich dark deep red with beautiful glow and sheen. The flower is very large and long, of excellent substance and quality, carried on a strong stem about 30 inches high. Here is a superb red Tulip never changing color or fading. Makes a perfect show until the end of its blooming season. A fine counterfoil for the pure white Tulip, Glacier.

The flower is round and beautifully molded and as purely white as the marble from which it takes its name. Height 29 inches. It is no use offering other white Cottage Tulips. None are as good or as cheap.

The flowers are of unusual and beautiful form, the petals being laciniated, having curious excrescences on the outside. It is not only the rare form of this Tulip or its main color, which is a soft rose-pink; the shadings of the cup are a deep velvety rose color which is more sumptuous than words can tell. The encrustation of back of petals often carries a delightful shade of apple-green. Height 26 inches.

Gadelan Doz. \$1.65, 25 \$2.95, 100 \$10.75

Pink Champion Doz. \$1.40, 25 \$2.60, 100 \$9.50
Blush-champ and heavily laciniated flowers make this the best of the Parrots in this particular shade. It is a variety which is much used in Europe for cutting. We prefer the deeper colored kind, Van Dyck, but many people like the apple-blossom color of Pink Champion.

Include some in your planting this autumn.

Van Dyck Doz. \$2.95, 25 \$5.35, 100 \$18.50
This variety is without question the finest of the Parrot Tulips. The remarkable flowers are brilliant rose-pink, somewhat paler at the edges on the outside. Inside very bright rosy red. Trumpet Daffodils

Aerolite Six 75c, Doz. \$1.35, 25 \$2.50, 100 \$8.75
The large flower is beautifully proportioned, giving the impression of gracefulness, despite its size. Perianth deep primrose, with a medium yellow trumpet which is left in bold relief by the broad pointed star formed by the opening outer petals, an inch and a half wide. Medium early, but remains until late, and is one of the longest lasting of all Daffodils in the garden or after being cut.

Beersheba Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50
Perianth and trumpet of magnificent proportions. Height 20 to 22 inches. Its color is not pure white, yet is expressive of purity in the highest sense. Those who are forming collections of fine Narcissus rate Beersheba at the top of the large white Trumpets.

Diotima Six \$1.40, Doz. \$2.50, 25 \$4.50, 100 \$16.00
Considered by experts as the very best of the new super-giant yellow trumpets. Despite its huge size (perianth being five to six inches across) the whole flower is beautifully proportioned and is carried gracefully on two-foot tall stem, entirely free from stiffness of many of the giant trumpets; the broad overlapping petals form a star-shaped perianth of medium deep primrose, trumpet somewhat more deeply colored. Undoubtedly one of the top-notchers for many years to come.

Insurpassable (New) Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50
An outstanding novelty. Extremely large, golden yellow flower of bold carriage. It is one of the finest of the big flowered golden trumpet Daffodils. It grows well, blooms freely, and has long stems, altogether a great Daffodil of recent introduction.

Top Size Round Bulbs

Mammoth Double Nose Bulbs
Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00

Lord Nelson (New) Six \$1.40, Doz. \$2.50, 25 \$4.50, 100 \$16.00
Lord Nelson is beyond any doubt the finest of the light yellow Trumpet Daffodils. A superb flower and beautifully colored.

Limone (New) Six \$1.60, Doz. \$2.95, 25 \$5.35, 100 \$19.00
Here is a rare Daffodil which is being talked about by the "experts." The perianth is primrose-yellow while the trumpet is of a much lighter shade but broadly edged with dark yellow which makes the fringed trumpet most distinct. Add to that the inside of the trumpet is creamy white and you have quite a combination. No wonder this variety is much sought after by collectors and growers! Order promptly, our supply is limited.

Mrs. E. H. Krelage Six 90c, Doz. \$1.50, 25 \$2.75, 100 \$10.00
The pristine purity of this flower, the play of light on its balanced petal- age, the graceful curve of the trumpet brim are unforgettable. An excellent grower. Easy to force, long-stemmed.

Mount Hood (New) Six \$1.40, Doz. \$2.50, 25 \$4.50, 100 \$16.00
A magnificent, pure white Daffodil. It is strong in stem and flower has fine substance. The trumpet is well proportioned and of purest white color. In our opinion this is the White Trumpet Daffodil of the future. Only a limited number of bulbs available at this time.

Peerless Gold Six \$2.25, Doz. \$4.00, 25 \$7.00, 100 \$25.00
An extremely large golden yellow Trumpet Daffodil of superb yet graceful proportions. Massive overlapping deep golden yellow perianth; large flaring, well formed trumpet. Vigorous grower suitable for exhibition.

Rembrandt (New) Six 80c, Doz. \$1.40, 25 \$2.60, 100 \$9.50
Pale yellow flowers of perfect form and substance. This is one of the most attractive varieties in this color. There are not many pale yellow trumpet Daffodils and we believe this to be one of the best in this group Holland has to offer us.

William the Silent Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50
One of the choicest of golden Daffodils. The large trumpet is pure golden yellow with round, overlapping, golden yellow perianth.

Cyclamineus Hybrids

Cyclamineus blood, like that of Triandrus, imparts such a distinct form to Daffodils, that a separate division has been made of its hybrids, which have trumpets of rich yellow, straight and tubelike, and perianths reflexed as a Cyclamen; very early flowering.

February Gold Six 70c, Doz. \$1.20, 25 \$2.20, 100 \$8.00
Perianth golden yellow, trumpet tinged orange, very early.

Poeticus Narcissi

Poet's Narcissi have pure white petals with a small very short scarlet cup and are some of the latest to flower. Highly fragrant and exceptionally good for naturalizing.

Actaea Six 65c, Doz. \$1.10, 25 \$1.95, 100 \$7.50
One of the finest of the new Poeticus varieties, beautifully proportioned; small Pheasant's Eye, reddish cup. This variety was introduced by Englehart in 1927 and is still considered one of the best new varieties.

Recurvus Six 60c, Doz. \$1.05, 25 \$1.85, 100 \$7.00
The old Pheasant's Eye. Perianth pure white, somewhat reflexing; cup margined deep scarlet; sweet scented. Fine for massing in borders or in grass.

New Pink Daffodils

Champagne Six \$2.40, Doz. \$4.25, 25 \$7.75, 100 \$27.50
Pure white perianth, well formed and of good substance. The cup is large, pale cream-pink, with broad apricot ruffled edge. When in full bloom the color turns to salmon-pink. One of the first to bloom and one of the very best.

Lady Bird Six \$1.60, Doz. \$2.95, 25 \$5.35, 100 \$19.00
White perianth, of perfect form. The large trumpet is distinctly pink and flaring, evenly ruffled, pale apricot outside, deep orange-apricot inside at opening deepening towards the throat. Strong stem. Most outstanding variety. It resembles Daisy Schaeffer in form and size.

Louise de Coligny Six \$2.40, Doz. \$4.25, 25 \$7.75, 100 \$27.50
Louise de Coligny is in our estimation, the most unusual Daffodil ever offered because it is deliciously fragrant. The reflexing perianth, which is pure white and of good substance, tends to throw the neat apricot-pink cup into focus. This variety, on opening, shows its color immediately while some of the other pinks do so on the second or third day. Although the flowers are not giants, they are produced in great quantity. A clump of six bulbs in our test garden produced over 22 good flowers the second year. It is a rapid multiplier. When walking past a cluster of flowers, the air is perfumed with a fragrance not unlike violets and vanilla mixed. There has never been anything like it.

Mrs. R. O. Backhouse Six \$1.20, Doz. \$1.85, 25 \$3.35, 100 \$12.00
This is the old "Pink Daffodil." Fine informal perianth of ivory-white, and beautifully proportioned, slim long trumpet of apricot-pink, changing to shell-pink at the deeply fringed edge. Delicately beautiful but of exceptional substance; long lasting; early. Belongs in every collection.

Pink Fancy Six \$1.20, Doz. \$1.85, 25 \$3.35, 100 \$12.00
White perianth, well formed, with a pale apricot cup, broadly fringed soft pink. This is a very free flowering variety and lovely for cutting. A few bulbs soon develop into a big clump. It is for that reason it can be offered for less. It is a splendid multiplier.

Pink Glory Six \$2.25, Doz. \$4.00, 25 \$7.00, 100 \$25.00
The "Orchid" among the Narcissi. Pure white perianth, somewhat loose but graceful, with an exquisite long trumpet opening light Indian yellow soon shading to a lovely pink, inside deep pinkish apricot remaining so till the end. Without any question one of the most beautiful "pinks" ever raised. When used in a small corsage with some Asparagus green, it is as delicate as an Orchid.

Pink Rim Six \$1.45, Doz. \$2.60, 25 \$4.75, 100 \$17.50
The stiff, pure white perianth is of exceptionally good form. The cup is soft citron-yellow with a sharply defined picoteelike pink rim. It is quite distinct in its marking and coloring and always draws a lot of attention wherever shown. Strong stem and free blooming plus a rapid increaser makes this one of the best new pink Daffodils.

Pink Select Six \$1.45, Doz. \$2.60, 25 \$4.75, 100 \$17.50
Pure white perianth of fine form, opening pale yellow, soon turning to a lovely pink with apricot shadings, but mostly pink when fully developed. The trumpet is nearly 2 inches long and 2 inches wide.

Rosy Sunrise Six \$2.25, Doz. \$4.00, 25 \$7.00, 100 \$25.00
This is one of the choicest of the Pink Daffodils. It is a strong grower and one of the freest bloomers. Perianth is white of good substance with a fine, strong, much-fringed cup or trumpet which is heavily ruffled. Color is salmon-apricot with pink shadings. Inside trumpet color soft corn-yellow, a difficult coloring to describe and still more difficult to illustrate.

Siam Six \$2.25, Doz. \$4.00, 25 \$7.00, 100 \$25.00
Pure white perianth, well formed and of good substance. The cup is wide and flaring, apricot-tinted changing gradually to a soft pink. This is perhaps the largest flowered one in the collection and we predict it will be used by the hundreds of thousands in the future.

Toscanini Six \$1.45, Doz. \$2.60, 25 \$4.75, 100 \$17.50
One of the finest pinks. Stiff white perianth of perfect form and substance. Long, large trumpet of a distinct shrimp-pink. Flowers are substantial and last a long time and it is very free flowering. Good strong grower and increases quite rapidly.

MIXTURE OF PINK DAFFODILS

Besides the varieties offered here there are many dozens of seedlings which are very much alike and it would not do to give them all names. Too fine to destroy, we offer them in this mixture to which also has been added a quantity of bulbs of the varieties listed here.

Short Cup Daffodils (Incomparabilis)

Carbineer (New) Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00
A rare new Daffodil of rare substance and form. Never before have we seen anything quite like it. The perfectly proportioned flowers are most unusual and clean cut. The perianth is perfect and so is the cup. Both are the same color, of deepest tangerine-orange-yellow. An outstanding variety noted for its perfection of bloom in particular.

Dick Wellband Six 70c, Doz. \$1.20, 25 \$2.20, 100 \$8.00
The perianth is pure white and the cup a brilliant flame-orange. One of its most remarkable qualities is that the color does not fade but rather intensifies with age. The flower has unusual lasting qualities. Its greatest beauty lies in the startling contrast between petals and cup which makes it stand out even in the largest collection of Daffodils. An exhibition variety "par excellence."

Firetail Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00
Popular the world over; broad petaled creamy white perianth and short cup, scarlet-orange.

John Evelyn Six 75c, Doz. \$1.35, 25 \$2.50, 100 \$8.75
Outstanding among the new Incomparabilis hybrids. Flatly opening perianth, 4 to 5 inches across, with a flat cup nearly 2 inches in diameter, densely frilled, the perianth being pure white without a trace of shading, and the cup lemon-yellow and fluted or shirred to the base; good neck. Strong grower; free flowering and a good propagator; one of the greatest Daffodils.

La Argentina (New) Six \$2.25, Doz. \$4.00, 25 \$7.00, 100 \$25.00
Large and broad white perianth; the cup is white but filled with radiating stripes of yellow and orange, giving the appearance as of spokes in a wheel. These distinct markings make this variety unusual and distinct. It never fails to draw attention.

Milk and Cream (New) Six \$2.75, Doz. \$5.00, 25 \$9.75, 100 \$36.00
A different Daffodil! Pure white perianth, enormous self colored flat crown of Indian yellow, heavily shaded with salmon. These colors are at their best when the flower is fully developed. We consider this one of the finer new varieties. Free blooming, strong growing and good stiff stems. Tops for garden and show table.

Mrs. R. O. Backhouse Six \$1.20, Doz. \$1.85, 25 \$3.35, 100 \$12.00
This is the old "Pink Daffodil"; fine informal perianth of ivory-white, and well proportioned; slim long trumpet of apricot-pink, changing to shell-pink at the deeply fringed edge. Delicately beautiful but of exceptional substance; long lasting; early, belongs in every collection.

Red Marley (New) Six \$1.60, Doz. \$2.95, 25 \$5.35, 100 \$19.00
A choice and brilliantly tinted Daffodil. Perianth is a distinct dark golden yellow. The cup is quite long and tinted richest copper-red. This brilliant coloring remains throughout the life of the flower and is not affected by the sun. Red Marley is one of the finest Daffodils to come from Europe since the war. It multiplies freely and should be in every Daffodil fancier's collection.

Scarlet Elegance Six 75c, Doz. \$1.35, 25 \$2.50, 100 \$9.00
A superb Daffodil, one of the finest in this group. The substantial flowers are large and have well-formed, dark yellow petals or perianth with medium sized but intensely brilliant orange-scarlet cup. During the war, experts on Daffodils in Holland quickly increased their stocks and now can offer this choice variety in quantity and at a remarkably low price.

Selma Lagerlof (New) Six \$1.20, Doz. \$1.85, 25 \$3.35, 100 \$12.00
Perianth is pure white with broad, heavy, overlapping petals. Cup is large and flaring, beautifully ruffled, soft yellow inside with wide rim of orange shading to red along the edge. This belongs among the finest of the new Daffodils.

Silver Star Six 70c, Doz. \$1.20, 25 \$2.20, 100 \$8.00
Perfect broad-petaled, star-shaped perianth of pure cream-white, with finely proportioned, wide-mouthed short trumpet of primrose, changing to cream-white, just a shade deeper than the perianth; extra fine and free flowering.

Apricot Attraction

(New)

Each \$1.25

This is probably the rarest and finest Daffodil ever offered to gardeners. Never has there been anything quite as exquisite in color as is now seen in Apricot Attraction.

The short, frilled cup is of deep amber color with rich fiery glow. The petals are firm and well placed, colored a soft amber with yellow ochre overtones making a color effect often called majolica yellow. It is a strong growing, free reproducing variety everyone will want. A visitor, who saw the test planting at Wayside, suggested it be called "Forever Amber." Whatever it is named, we elect it as the finest Daffodil of the past 50 years. Only a limited number of bulbs available.

The New Weather-Proof Daffodils

Without question one of the finest lots of New Daffodils to come from Holland is known as the Weather-Proof or John Evelyn Hybrids. In the autumn of 1946 and 1947 the first bulbs were sent us by Grullemans of Holland. We as well as several of our customers have tested these and all unreservedly claim them to be the finest selection of short cup Daffodils they have ever seen. The flowers have twice or more the substance of the varieties now generally in use. Rain, snow or wind, as well as burning hot sun, which frequently occur during the blooming season, do not affect them. All multiply very rapidly and do not require frequent transplanting to keep them blooming freely. Thirty flowers from 6 bulbs the second year is a low average.

Brookville (New) Six \$1.40, Doz. \$2.50, 25 \$4.50, 100 \$16.00

Giant flowers and a greatly improved form of the well known John Evelyn. It is distinguished by its tremendously heavy, broad, flat, white perianth and large, short, completely ruffled cup of lemon-yellow. A magnificent new hybrid of outstanding merit. It flowers freely and grows ruggedly; the general effect is bold and strong, yet handsome. One of the finest flowers for garden or cutting. Don't miss including this variety in your next planting.

Confuoco

Six \$2.65, Doz. \$4.75, 25 \$9.00, 100 \$32.00

The outstanding new "Weather-Proof." Broad deep yellow perianth, very wide, crested crown of deep vivid scarlet.

Duke of Windsor (New)

Six \$2.25, Doz. \$4.00, 25 \$7.00, 100 \$25.00

Magnificent, heavy, thick, pure white overlapping petals with pale yellow cup very flaring and short, beautifully ruffled. The inside edge of the cup shows delicate tinting of a broad deeper yellow band, a most interesting variation in the soft over-all pale yellow shade of the cup. This also is one of the choicest John Evelyn Hybrids, destined to be a leader as soon as it becomes available generally.

Green Emerald (New)

Six \$1.35, Doz. \$2.40, 25 \$4.35, 100 \$15.50

The perianth is composed of short, heavy and thick, pure white petals. The soft lemon-yellow tinted crown is short, widely flaring and beautifully ruffled. We consider this one of the finest Daffodils Holland has sent us. It is distinct, handsome, very free flowering and multiplies fast. What more could be asked!

Harvest Moon

Six \$2.65, Doz. \$4.75, 25 \$9.00, 100 \$32.00

Broad creamy white perianth. Crown is a large and flat deep golden yellow with broad reddish orange edge. Unusually good substance and very free-flowering.

Manco (New)

Six \$1.45, Doz. \$2.60, 25 \$4.75, 100 \$17.50

Large heavy perianth of pale yellow to ivory. Very broad and showy cup, nicely frilled of deep golden yellow with broad orange ruffles. Excellent quality, great substance and vigor and increases rapidly. A superb variety.

Times Square (New)

Six \$2.40, Doz. \$4.25, 25 \$7.75, 100 \$27.50

A bold short cup Daffodil. The perianth or petals are well placed and tinted cream-yellow. The cup is flat, ruffled and fiery orange-red. We would say that this variety is well named because its cup certainly portrays the brilliant lights of Broadway at night. Free blooming, increases rapidly and makes a fine show in the early spring garden.

Wodan (New)

Six \$2.40, Doz. \$4.25, 25 \$7.75, 100 \$27.50

Large canary-yellow perianth with very large, flaring crown of the same color, beautifully frilled and ruffled. The edge of the ruffle is tinted light orange which gives a fine character to the flower. It is a very rugged variety which multiplies rapidly and blooms very freely. A superb Daffodil for the garden as well as for cutting.

Mixed Weather-Proof Daffodils

We offer a beautiful mixture of Weather-Proof Daffodils which includes all varieties offered as well as some dozens of unnamed seedlings, at a very special price.

Doz. \$2.25, 25 \$4.00, 100 \$13.50

Jonquilla Hybrids

Campernelle, Double

Six 70c, Doz. \$1.20, 25 \$2.20, 100 \$8.00

Two to three golden yellow, small, fragrant flowers on strong stems; lovely for cutting. Height 13 inches.

Jonquilla Simplex (Queen Anne's Daffodil)

Six 70c, Doz. \$1.25, 25 \$2.30, 100 \$8.25

The true tiny single Jonquil. The bulbs as well as the flowers of this miniature Daffodil are not very much larger than the Snowdrop. The flowers are a pure golden yellow and delightfully fragrant; foliage is grasslike. Perfectly hardy and most satisfactory small Daffodil for the rock garden.

Trevithian (New)

Six 70c, Doz. \$1.20, 25 \$2.20, 100 \$8.00

A superbly beautiful variety. The translucent sparkling soft yellow flowers are wavy and fairly dance. Seldom does one see so much grace and charm in a flower. Trevithian has from two to four flowers on a tall, stiff stem which makes it an outstanding cut flower variety. In the garden it is equally satisfactory. High winds don't bother it, and like all Campernelle Hybrids, it is able to withstand the hottest sun without wilting or burning. It is only now that we can obtain it in Holland in quantity that it can be offered at a modest price. Buy as many Trevithian as you can afford. It's tops in its class.

Daffodil Species

Bulbocodium citrinus

Six 90c, Doz. \$1.50, 25 \$2.75, 100 \$10.00

Large sulphur Hoop-Petticoat, very beautiful pale citron-yellow. Height 6 to 8 inches.

Bulbocodium, Conspicuum

Six 70c, Doz. \$1.20, 25 \$2.20, 100 \$8.00

Yellow Hoop-Petticoat, flowers rich golden yellow of hoop-petticoat form and rush-like foliage. Height 6 inches.

Canaliculatus

Six 70c, Doz. \$1.25, 25 \$2.30, 100 \$8.25

A dainty little Polyanthus Narcissus from Mentone, suitable for sunny positions in the rock garden. It has narrow, erect bluish green foliage and bears heads of 3 to 4 flowers with white perianth and globular golden cup, sweetly scented. Height 6 inches.

Juncifolius

Six 80c, Doz. \$1.40, 25 \$2.60, 100 \$9.50

Small, graceful, rich yellow flowers, rather smaller than a Buttercup with a dainty little flat crown.

Minimus

Six 90c, Doz. \$1.50, 25 \$2.75, 100 \$10.00

A miniature trumpet Daffodil not over 6 inches tall. Its tiny yellow trumpet is perfectly formed and not much over 1/2-inch long. A choice variety for the rock garden.

Triandrus albus

Six 70c, Doz. \$1.20, 25 \$2.20, 100 \$8.00

An exquisitely beautiful little species, it is of slender growth and produces a cluster of elegant creamy white little flowers with globular cup and perianth reflexing as in the Cyclamen. Height 7 inches.

Triandrus Hybrids

These are the Cyclamen-flowered Daffodils with reflexing perianth. The flowers are more or less drooping, of elegant form and graceful habit.

Moonshine

Six 70c, Doz. \$1.20, 25 \$2.20, 100 \$8.00

A beautiful Triandrus Hybrid; star-shaped white flowers, often three to a stem, drooping gracefully, very beautiful and a great favorite, especially for the rock garden or for naturalizing in the shade. A fine exhibition variety.

Thalia

Six 70c, Doz. \$1.20, 25 \$2.20, 100 \$8.00

In addition to a peculiar attraction at first sight, this flower leaves one with an impression that it is white, yet it is a whiteness that is not white. The recurving petals and the angle of the three trumpets are unlike the conventional short-cupped Daffodil. The stem is dark green, round and reedlike thin. Some call it the "Orchid-flowered" Narcissus which adds to the mystery. Thalia provides unusually good material for artistic arrangement.

Double Narcissi

Albus plenus odoratus

Six 65c, Doz. \$1.10, 25 \$1.95, 100 \$7.50

The old Gardenia-flowered Double Poet's Narcissus. Pure snowy white; wonderfully fragrant. Should be planted in shade and kept well watered at flowering time to prevent flower buds from drying off. Blooms extremely late, after most of the Narcissi have gone. A rare old variety preserved jealously in a few old gardens and worth special care.

Daphne

Six 70c, Doz. \$1.20, 25 \$2.20, 100 \$8.00

The most promising novelty of this division. Sweet scented, dainty, pure white double flowers; early forcer.

Inglescombe

Six \$1.00, Doz. \$1.55, 25 \$2.90, 100 \$10.50

A handsome, double Daffodil, the color of which is soft sulphur-yellow.

Mary Copeland

Six \$1.20, Doz. \$1.85, 25 \$3.35, 100 \$12.00

One of the famous varieties of the new Doubles. This variety has been termed the most striking double in cultivation; the longer petals are pure cream-white with a golden ray down the center, interspersed with shorter petals of lemon and brilliant orange, giving a three-color effect. Unsurpassed for garden or show.

Twink

Six 70c, Doz. \$1.20, 25 \$2.20, 100 \$8.00

It is double, of the semi-full type, the petals alternating a soft primrose and clear orange; and so arranged as to give the flower a most attractive appearance; and making it a most adaptable flower for large scale decorative work; it is very free-flowering and hardy.

Duke of Windsor

Centifolium "Olympic Hybrids Special Select"

The general types available are the large formal waxy white trumpets characteristic of the trumpet family of unusual substance and vigor, and exhibiting ideal placement with either white or light pink exteriors—the wide flaring open bowl-shaped type, usually with brownish or light greenish exteriors to the petals and the very large flowered irregular form which has recently shown up in our seedling plants possessing longer petals which are often slightly twisted or ruffled, giving the flower a most graceful, informal shape.

Centifolium "Pink Selections"

Each \$2.25

This is the first offering of a strain which has had our closest attention for several years. Although in habit and in culture the plants are similar to the Olympic Hybrids, the flowers are shaded pink. This color extends over the inner surface as well as the outer surface of the petals and is indescribably beautiful. This offering is bound to become one of the most popular of garden Lilies as soon as sufficient stocks are available. Specially hand selected.

Regale (The Regal Lily)

One of the most beautiful and also one of the easiest of Lilies to grow. Center of flower flushed with yellow shading to white at outer edges; externally, the flowers are streaked with brown on the "ribs," shaded through the almost translucent petals with a delightful pearly tint.

Mid-Century Hybrid Lilies

For literally hundreds of years fruitless attempts have been made to cross the *Umbellatum* and *Tigrinum* Lilies in Europe. Finally and possibly because of more favorable conditions, this feat was accomplished a few years ago in Oregon. The results are astounding and sensational. The cross produced magnificent plants 4 to 5 feet tall, rigid stems which do not require staking, beautifully formed flowers growing in big open clusters. Foolproof and perfectly hardy; they will grow anywhere.

Enchantment (Plant Patent No. 862)

Each 50c, Three \$1.40, Doz. \$5.00, 25 \$9.50

A veritable giant, growing about 36 to 40 inches tall when established. Color is nasturtium-red. Flowers upright in big heads blooming week after week, providing a blaze of the richest possible color in the garden. Enchantment is probably the most vigorous Lily in cultivation, as well as the most rapid multiplier of bulbs. There is a surprise in store for you. If you ever failed growing Lilies, you won't with this one.

Fireflame

Each 70c, Three \$1.90, Doz. \$7.00, 25 \$13.50

This is possibly the best in the red shades. Color is described by customers who have seen it as Indian red, burnt orange and mahogany-red. Flowers grow horizontally, are wide open with recurving broad petals in big heads on stems about 25 to 28 inches tall. It produces bulbils on the stem, all of which will bloom in 2 years. Sturdy, rugged grower.

Joan Evans

Each 70c, Three \$1.90, Doz. \$7.00, 25 \$13.50

Named after the popular young Hollywood star, is a broad-petaled, bright golden yellow upright Lily. It is late flowering and therefore a particularly fine addition to our garden Lilies. Carrying as many as from six to nine flowers on a thin, wiry and tough stem, it stands from 4 to 5 feet tall. Magnificent cut and show flower but equally good in the herbaceous border. Flowers attractively spotted maroon.

Valencia

Each 70c, Three \$1.90, Doz. \$7.00, 25 \$13.50

Beautiful heads of flowers of softest gold to rich yellow, clear and clean. A slight midrib and a very few small coppery gold spots in the flower petals create an excellent effect. This is a brilliantly colored variety. It stands out and we consider it one of the best. Flowers grow horizontally, are nicely balanced, petals broad. Its color glows. One of the "tops" in the collection. Grows about 27 to 30 inches high.

MID-CENTURY LILIES IN MIXED COLORS

For the past few years we offered a number of named varieties of the Mid-Century Lilies. The response was so overwhelming that we found ourselves oversold even before the normal season ended. This year with still only limited quantities available of the named varieties, we decided to offer a mixture consisting not only of the kinds offered but including hundreds of fine hybrids as well. We guarantee this mixture to contain only the choicest of our new hybrids in a range of most brilliant colors.

Three \$1.40, Doz. \$5.00, 25 \$9.50, 100 \$32.00

Aurelian Hybrid Lilies

These hybrids are the result of crosses between Henryi, Sargentiae and Sulfureum and vary in shape from short trumpet-shaped, bowl-shaped, to those with widely flaring and recurving petals. Cream tinted with yellow and apricot centers; some light yellow with apricot centers, all superbly beautiful. Only a limited number of bulbs are available. Here again the Henryi blood in this strain has made it strong and vigorous.

Sunburst Hybrids Each \$1.15, Three \$3.25, Doz. \$12.50, 25 \$24.00

This group is made up of the flowers which most closely resemble Lilium Henryi in shape. They are much larger and more reflexed than those of Henryi and the colors include white, cream-yellow and orange. The flowers are of unusual texture and substance. Strong growers and permanent.

Heart's Desire Hybrids

Each \$1.15, Three \$3.25, Doz. \$12.50, 25 \$24.00

This selection is almost intermediate in shape between the trumpet form and the Lilium Henryi shape. They are essentially shallow, widely flared and bowl-shaped in shades of white, cream and yellow-orange. Many of them have a bright orange throat shading to cream-yellow at tips of the petals. All are strong growers and will form permanent groups.

Golden Clarion Hybrids

Each \$1.50, Three \$4.00, Doz. \$14.50, 25 \$28.00

This type resembles the Trumpet Lily in all respects except in color and texture of the flowers. The shading of the petals varies from clear butter-yellow down to cream-yellow. These forms are extremely rare and scarce at present. They are a magnificent addition to the Trumpet Lily group and we predict that these along with the new pink trumpets will become, in the very near future, as popular and as widely planted as are the Olympic Hybrids today.

Lilium Royal Gold

The Golden Regale Lily

A golden yellow, true-blooming mutation of the Regale Lily. This beautiful new variety is identical with the best L. Regale except for its true golden coloring. The flowers have a most attractive, shiny, glistening surface. Seed saved from this golden beauty will come true to color so there is no reason why you should not try to grow some of these bulbs yourself. Royal Gold is without doubt one of the finest introductions in Lilies. Don't miss it!

6 to 7 in. bulbs Each \$1.80
8 to 9 in. bulbs Each \$2.50

Regale, Gold Cup

Each \$1.20

A beautiful form of Regale Lily, producing handsome flaring flowers which are canary-yellow at the base with primrose-yellow petals showing only a very small margin of white at the tips of the petals. This rare form and color will be greatly appreciated by the connoisseur. Only a limited few bulbs available.

Bulbs run somewhat small in size.

Auratum Hybrid "Jillian Wallace" Each \$4.00
This bold Lily hybrid is now, and may well be for years to come, the best of all the new Auratum hybrids. The fully opened flowers are more than 8 inches across and the plants bear as many as seven of the huge flowers on 5- to 6-ft. stems. The best color description we can give is that the petals are Tyrian rose with white margins and spotted with a really intense, deep crimson. The petals are slightly crested on the inner edges, near the base of the flower. The flowers are strongly but nicely scented and the entire plant makes an unforgettable impression.

Formosanum

Giant Late Flowering, White Trumpet Form
Three 85c, Doz. \$2.95, 25 \$5.35, 100 \$19.00
Of easiest culture, this Lily should be in every garden. Our strain is tall and free flowering and has been grown from selected plants for several generations. Full sun or partial shade suits it well and for better flower production if some water is provided during the hottest part of the summer, you will be well rewarded for your trouble.

Fiesta Hybrids, Mixed Colors Only
Three \$1.70, Doz. \$6.00, 25 \$11.00, 100 \$42.50
A Magnificent and Brilliantly Colored Race of New Lilies. This new race of seedlings has neatly reflexed flowers, nicely spaced on thin, wiry stems. Resulting from crosses between L. Davidi (L. Willmottiae) and related types, they are one of the brightest patches of color in our Lily fields during July. The colors range from bright yellow through orange to a beautiful dark rich red. The latter color is new to this type of Lily. Most of the flowers are of the typical recurved Turk's-cap shape and many of the plants have blooms facing outward or somewhat upward with the petals slightly recurved. Award of Merit, Massachusetts Horticultural Society, 1946.

Dr. Abel's Fiesta Hybrid Lily

Each 80c, Three \$2.25, Doz. \$8.00, 25 \$15.50
This is a remarkably fine, brilliant red Lily. The beautifully reflexing flowers are borne on a thin, wiry stem during July. It is of easy culture and multiplies quite rapidly from underground bulblets.

Giganteum Himalaicum

Each \$2.75
The most majestic of Lilies, having stems 10 to 12 feet high when established, with large, handsome, long, white, trumpet-shaped, sweet scented flowers. Groups of this noble Lily in woodland or gardens produces a grand effect. It requires to become established before flowering freely and thrives best where there is an abundance of leaf soil. Plant very shallow.

Green Mountain Hybrids

Each 80c, Three \$2.25, Doz. \$8.00, 25 \$15.50, 100 \$59.00
This group resulted from seed obtained from careful re-selection of seed in an effort to fix the character of unusual size of flower, combined with a green coloring of the throat and the brown shaded exterior of the petals. Quite distinct in shape and color, they are definitely a superior group of plants, particularly valuable for garden planting as well as being a magnificent cut flower. They require the same cultural treatment as Centifolium Lilies.

Hansoni

Three \$1.40, Doz. \$5.00, 25 \$9.75, 100 \$36.00
Plant among the low plants to protect young shoots, this being one of the earliest Lilies to appear in spring. Does as well in thin woodland as it does in the border. Height 4 to 5 feet, carrying blossoms 2 inches across, regularly reflexed, the petals being of a bright orange-yellow, spotted more or less with brown; of a heavy waxy texture. June flowering.

Japonicum Each 75c, Three \$2.00, Doz. \$7.50, 25 \$15.00
This is one of the few "pink" Lilies for our gardens, and a very lovely thing it is. The flowers are carried horizontally on stems 3 feet tall. Somewhat capricious in its requirements, it is a Lily so beautiful and of a color so lovely and unusual that it is worth taking pains with. The funnel-shaped, finely formed flowers are 6 inches or more in length and as much across, of a beautiful clear pink color often shaded blush. June-July flowering.

Martagon album Each 75c, Three \$2.00, Doz. \$7.50, 25 \$15.00
There are few more beautiful things than the white Martagon Lily. The appearance of these Lilies is graceful and delightful in the extreme. On slender stems 4 to 5 feet high, the numerous drooping, waxlike, white Turk's Cap flowers, with yellow tipped stamens, look fascinating. The small flowers are symmetrical in shape, with reflexed petals and are borne in pyramid-shaped clusters.

Shuksan Each 70c, Three \$1.90, Doz. \$7.00, 25 \$13.50, 100 \$50.00
A new Hybrid Lily with a great future. Also a fine bill of health. Through careful cultivation a very high state of health has been maintained and we have never seen any bulbs infected with mosaic, that fatal disease some Lilies are subject to. Shuksan is a very vigorous grower, 5 to 6 feet tall and produces its flowers in open heads, 15 to 25 flowers on one plant is not unusual. The color is soft buff-yellow broken by large, quite widely spaced, soft brown spots. At opening, the flowers are star-like. The petals reflex and roll back when in full bloom. Flowers last a week when cut.

This lovely shading is enhanced by attractive brown anthers. The flowers are of fine size, broad and spreading. Begins to bloom the end of July, and blooms over a long period.

GIANT EREMURUS

Spectacular and Rare Garden Plants

Bungei Each 80c, Three \$2.25, Doz. \$8.00

This is the parent from which the Shelford Hybrids were produced. Bungei is not as big a plant as, for instance, the Robustus but it makes a fine spike of golden yellow flowers about 3 to 4 feet tall. It is the easiest and hardiest of the varieties offered, blooming freely. Its root system is smaller and must not be compared with that of Robustus for instance.

Elwesianus Each \$2.25, Three \$6.25, Doz. \$22.50

Blush-white flowers similar in form and height to Robustus. A magnificent species growing easily 7 feet tall. This, as well as all other Eremurus, is produced from seed which results in slight variation of tints and shadings.

Robustus Giant roots, Each \$2.50, Three \$7.00, Doz. \$25.00

Flowering roots, Each \$1.75, Three \$5.00, Doz. \$17.50

Light rosy pink flowers grow on stems 6 to 8 feet tall. One-third to one-half of the stem is covered with sparkling, small cuplike flowers. This is one of the giants of the family, easily grown and lasts from year to year. Giant roots produce one or more spikes.

Himalaicus Each \$1.50, Three \$4.00, Doz. \$15.00

A veritable giant. It is a simple matter to grow flower stalks 7 to 9 feet tall on this variety. The rigid spikes are covered with waxy white, cup-like flowers with golden anthers and remain in bloom four weeks or more. We have withheld Himalaicus from sale for several years because we wanted to sell this plant in quantity and at a popular price. With reasonable care they will flower for you ten years or more without the need of transplanting.

Him-Rob Each \$2.25, Three \$6.25, Doz. \$22.50

This tremendous flower is the result of a cross between Himalaicus and Robustus. Its 7- to 9-foot flower spikes are studded with shiny cuplike flowers which vary from pale to deep pink, the flowers lasting four weeks and longer. As in the case of Himalaicus we did not offer this variety for sale until a large stock was first available. Here really is something outstanding for your garden at a price never before possible.

WAYSIDE GARDENS PLANT FOOD

It is excellent for spading into Rose beds when you are preparing the Rose bed for winter. Use it generously in your bulb plantings and in the hardy flower border, and avoid the weed

problem which results from the use of manure. Excellent for potting soil in shifting young stock because of its great content of organic material and absence of fillers.

How to Use Wayside Plant Food

You do not need to use much of it to obtain lasting results. If a garden is an established one, apply twice a year, March first and October first. Use 15 to 25 pounds for top dressing a space 500 square feet for Hardy Plants, Rock Plants, Roses, Annuals, and other Flowering Plants, Shrubs and Bulbs.

In making a new garden, double the amount and mix with the soil. Planting may be done at once. There will be no burning. For old lawns, use 10 to 25 pounds for top dressing 500 square feet. For potted plants, a 3-inch potful mixed with a bushel of soil will give you splendid results over a long period.

Wayside Gardens Plant Food Contains No Useless Weight or Bulk Producing Fillers

A 100-lb. bag for \$8.00; 500 lbs. for \$35.00; 2000 lbs. for \$115.00.

WAYSIDE GARDENS PLANT FOOD

It is excellent for spading into Rose beds when you are preparing the Rose bed for winter. Use it generously in your bulb plantings and in hardy flower border, and avoid the weed

problem which results from the use of manure. Excellent for potting soil in shifting young stock because of its great content of organic material and absence of fillers.

How to Use Wayside Plant Food

You do not need to use much of it to obtain lasting results. If a garden is an established one, apply twice a year, March first and October first. Use 15 to 25 pounds for top dressing a space 500 square feet for Hardy Plants, Rock Plants, Roses, Annuals, and other Flowering Plants, Shrubs and Bulbs. In making a

new garden, double the amount and mix with the soil. Planting may be done at once. There will be no burning. For old lawns, use 10 to 25 lbs. for top dressing 500 sq. ft. For potted plants, a 3-inch potful mixed with a bushel of soil will give you splendid results over a long period.

Wayside Gardens Plant Food Contains No Useless Weight or Bulk Producing Fillers

A 100-lb. bag for \$8.00; 500 lbs. for \$35.00; 2000 lbs. for \$115.00

LIMITED LIABILITY AND NON-WARRANTY. We express or imply no warranty as to productiveness or life of the stock we sell. It is mutually agreed that our liability for untruthfulness to name is confined to free replacement or refund of purchase price plus interest, and should the stock prove to be untrue to the name under which it is sold, it is further agreed that such adjustment shall be the liquidated damages and all the damages to which the purchaser shall be entitled by reason of the premises.

SPECIAL NOTICE: Correspondents are requested to use their printed business letterheads. We use every effort to limit the distribution of trade prices to those whom we know to be entitled to receive them.
